Was Baymark Partners concerned about any risks 8 8 notate everything down. related to Windspeed? 9 9 If I ask a question you don't understand, A. No. 10 10 just let me know, and I'll try to rephrase it or make it Q. What role did Baymark Partners play in the 11 11 foreclosure of ACET Global's assets? 12 And as you know, if you need a break 12 A. Well, under the original agreements, the 13 13 anytime to use the restroom, get a drink, just let me lenders had rights, and I think we tried to make sure know; we'll take a break. And I'll probably just ask that we stuck by the rights that were set up originally, 14 14 15 that if there's a question on the table, that you answer 15 when all the parties closed the agreement. I think 16 that. 16 sticking to the rights we all agreed on is our basic 17 A. (Nodded head.) 17 18 Q. Mr. Ludlow, why did ACET Global fail to pay the 18 Q. Okay. What do you mean by that? What specific 19 19 \$3.2 million note owed to D&T Partners? rights? 20 20 A. The company didn't have any cash at that time. A. Under the Asset Purchase Agreement, I guess the 21 Q. Were there any other reasons? 21 Note Agreement, and the Security Agreement that Super G 22 A. None that I can think of. 22 had, they'd all agreed on rights they had, and making 23 23 Q. What steps were taken to try to pay the note? sure they stayed under those rights is how we would A. I'm not clear what you mean, other than trying protect it. And to also make sure there was no residual 2.4 24 25 25 risk to ACET after the foreclosure where they would come to have a functioning company prior to that point. Page 15 Page 17 1 1 Q. Was anything -- were any actions taken back and try and stick us with more risk or debt. 2 specifically to attempt to pay the note? 2 Q. Okay. What specific rights did Super G Capital 3 3 A. The operation of the company, trying to make have? 4 4 the company survive as long as possible. A. I'm not gonna have those memorized, but it 5 5 Q. Were any steps taken to position the company to would be under their Note Agreement and their Security 6 6 actually pay the note? Agreement. 7 7 A. Again, I think that trying to operate the Q. Okay. Was there anything in particular that 8 8 company and keep it alive as long as possible is the best you recall wanting to protect for Super G? 9 way to have the creditors get repaid. 9 A. I don't know that I said I was protecting Super 10 Q. Why did Baymark obtain warrants in Windspeed 10 G. I was protecting ACET Global, giving other parties no 11 Trading LLC? 11 more rights than what I felt we had already negotiated 12 12 A. I believe Bill Szeto formed Windspeed Trading under those agreements. 13 and then informed us that he wanted us to have warrants 13 Q. Okay. But you wanted to stick by those --14 of equity in the company. I'm assuming he thought that 14 those rights, or do what you could to? 15 we would then also put cash in the company, which we 15 A. As I recall. Q. And what steps did Baymark Partners take to 16 never did. 16 17 Q. You never did? 17 stick by those rights? 18 18 A. Well, as things were presented to us, we would 19 Q. So Mr. Szeto brought the Windspeed opportunity 19 consider them from -- I guess from Super G. We'd 20 to Baymark? 20 consider those and vet those against, I guess, the 21 A. He did. 21 agreements that were there between us and counsel. 22 Q. How was Windspeed Trading LLC related to ACET 22 Q. So Baymark Partners' kind of only role was 23 Global, LLC? 23 evaluating proposals put forward by Super G? 2.4 MR. PERRIN: Object to form. 24 A. Well, in the context that we're talking. I was 25 A. I don't think it was related at all. 25 limiting my responses to -- I think your questions were

Page 18 Page 20 1 around what role in the foreclosure. So that was one 1 forfeiture important? 2 role. Then if you expand it to say "The role of Baymark 2 MR. PERRIN: Objection; form. 3 is just only," that's cutting off, I think, a much 3 A. I don't understand the form of the question. 4 broader role that Baymark had as well as far as managing 4 "Important." Important is a big third-party question 5 and overseeing the operation, as well. So I just want to 5 outside of -- are you speaking to me, or to everyone or 6 6 be clear, answer your question. to the world, or just in general? 7 7 Q. Fair enough. And I think you're right. I Q. (BY MR. FREEMAN) From your perspective, why 8 8 didn't mean to -- I didn't mean to expand it that way. was -- why might the forfeiture -- why would it be 9 9 Within the context of the foreclosure and important? 10 10 the various options, I guess, related to the foreclosure, A. It's not important for ACET if it's something 11 was Baymark Partners' only role there evaluating 11 the bank was gonna do. It's important that it was done 12 proposals put forward by Super G Capital? 12 correctly. I guess you want to add importance to it. A. And protecting -- and protecting ACET Global's 13 13 Q. Okay. Any other reason? A. None that I can think of. That would be the 14 14 15 15 Q. Okay. As far as the steps that were actually primary reason. 16 taken, did Baymark Partners play a more active role in 16 Q. Okay. Did Super G ever take possession of ACET 17 facilitating the foreclosure? 17 Global's inventory? 18 MR. PERRIN: Objection; form. 18 A. So, "possession," that sounds like a very 19 A. I don't know what you mean by "active role." I 19 physical concept. Like, did they come with a team of 20 will say that as soon as the loan goes into default, the 20 guys and, like, put their hands on it? I don't think so. 21 21 But "possession" as in letting people know bank has you. And so the whole time you're working to 22 continue to support the company and run the company and 22 that that's their stuff through inference or e-mails, 23 garner, I guess, trust in the bank. 23 2.4 Because I guess technically they can take 2.4 Q. How did they let people know that it was their 25 everything day one you default, and every day they don't 25 stuff? Page 19 Page 21 1 is another day the company can survive. So I don't know 1 A. It would -- at some point, I believe -- I'm 2 if that's responsive to your question, but the role is --2 talking secondhand. Through maybe Bill Szeto, directing 3 3 him since he was CEO of the company. Letting him know that went on for a while. 4 4 Q. (BY MR. FREEMAN) Had Super G, in fact, what they wanted done with their stuff. 5 5 threatened to take all of ACET's assets? Q. So Super G was having correspondence or 6 6 A. I don't think it's a -- I don't think there was discussions with Bill Szeto about ACET Global's 7 7 an explicit e-mail, but there was concern about the inventory? 8 8 direction of the company, what was being done to make --A. That would be an assumption on my part, but 9 ensure that it would survive beyond the -- for six months 9 that is my assumption. 10 or when we got to Christmas, that time frame. 10 Q. So is it ACET Global's position that Super G 11 Q. And why, again, was Baymark Partners involved 11 was having direct conversations with Mr. Szeto about ACET 12 12 Global's inventory? in the forfeiture process? MR. PERRIN: Objection; form. 13 A. That's an assumption. I don't know that I have 13 any e-mails to that effect, but I think that would be 14 A. I don't know what you mean by "involved." 14 15 15 Again, involved with regards to protecting ACET's rights common. 16 and making sure that if somebody wanted to enact rights 16 Q. Is that also Baymark Partners' position? 17 that were outside of what we had all agreed to 17 A. Yes. 18 beforehand -- I think that's what we'd want to make sure 18 Q. When did Super G and Mr. Szeto engage in those 19 of, then, separately. You'd want to look at the 19 discussions? 2.0 forfeiture items to make sure that afterwards there 20 A. I wouldn't know when those started. I can't 21 wasn't blowback, more risk or liabilities put back on 21 speak to any conversations Bill Szeto had directly with 22 us -- or ACET Global afterwards. So that's the 22 Super G. We brought him in, and they had never met. And 23 participation, as in . . . 23 then later on, they were talking more and us less. So I

(Court reporter clarification.)

Q. (BY MR. FREEMAN) Mr. Ludlow, why was the

Page 22 Page 24 1 of ACET Global's inventory? 1 I'm not being funny. I'm just -- it 2 A. I'm not sure that the concept of possession, 2 matters. 3 you know, legal versus casual -- meaning did they exert 3 Q. So I'm referring to the inventory or assets 4 control over them physically, with a team of guys who 4 that were owned by Windspeed. 5 touched them? I don't know -- I don't know what 5 And just to be clear: Let's work under the 6 Windspeed did. I wasn't involved at Windspeed. 6 assumption that even though there may be a lien, even a 7 7 I do know that there was clear demarcation senior lender lien, that the inventory is still, at that 8 8 at the time of foreclosure because the actual title went point, owned by Windspeed. 9 9 over to Windspeed at that time. But prior to that point, And so my question encompasses inventory 10 you know, what Super G had them do with one versus the 10 that is owned by Windspeed, even if it is subject to a 11 other, I don't know. 11 12 Q. So prior to the foreclosure sale in March 12 And so with respect to the inventory at 13 issue, did ACET Global ever ask Windspeed Trading to hold of 2019, prior to the foreclosure sale, did Windspeed 13 14 Trading take physical possession of ACET Global's 14 its inventory? 15 15 MR. PERRIN: Objection; form. inventory? 16 A. I don't know. 16 A. I don't know. And you used Windspeed's 17 Q. Prior to the foreclosure sale in March of 2019, 17 inventory and Windspeed's -- had a lien on it, so I 18 did Windspeed engage in the sale of ACET Global's 18 wouldn't know about it. 19 19 But in your lead-up and in your question, 20 A. I don't know. When you -- so you're asking me 20 you asked about ACET, so I'm just going to answer for the 21 what Windspeed did --21 ACET. So I don't know either way. Q. (BY MR. FREEMAN) If I used -- if I used the 22 Q. Yes, sir. 22 23 23 A. -- with ACET Global's inventory? word "Windspeed" as a lien -- I don't believe I did, but I wouldn't know what Windspeed did. 2.4 24 if I did, I mean Super G's lien. The senior lender's 25 Q. Okay. Between October of 2018 and March 25 Page 23 Page 25 1 A. On ACET Global. 1 of 2019, where was ACET Global's inventory located? 2 2 A. I don't know. I know it was at a wax Q. On ACET Global's assets. 3 3 A. That's how I answered. (phonetic) at one point, and it might have been --4 4 something that maybe -- Bill Szeto, what -- he would Q. Okay. So you don't believe that ACET Global 5 5 ever requested Windspeed to hold any inventory? 6 6 Q. Okay. So if Bill Szeto testified about it, he MR. PERRIN: Objection; form. 7 7 would be -- he would be the one with knowledge? A. I don't believe so. 8 A. He would be the one with knowledge. 8 Q. (BY MR. FREEMAN) And did Baymark Partners ever 9 9 Q. Did ACET Global ever request that Windspeed make any of those requests? 10 sell its inventory? 10 MR. PERRIN: Objection; form. 11 A. Say that again. 11 A. I don't think so. 12 Q. Did ACET Global ever request that Windspeed 12 Q. (BY MR. FREEMAN) Mr. Ludlow, in December 13 sell its inventory? 13 of 2018, was Baymark Partners concerned about the 14 A. I don't know. I don't believe so. 14 Windspeed structure? 15 Q. Did ACET Global ever request that Windspeed 15 MR. PERRIN: Objection; form. 16 hold its inventory? 16 A. I don't know what a "Windspeed structure" is, 17 A. So I'm not sure what you're trying to ask. 17 but I don't -- I don't recall being concerned about 18 And I want to be clear: When you say "its 18 Windspeed. 19 inventory," I have this idea that the inventory that's 19 Q. (BY MR. FREEMAN) Okay. Did you have a 20 under a secure senior lender, that's secured to the 20 discussion with Matt Denegre about Baymark's options with 21 senior lender, and I'm excluding from it that definition. 21 respect to the Windspeed structure? 22 So are you saying items outside of the 2.2 MR. PERRIN: Objection; form. 23 secured lien -- from the secured lender or the stuff 23 A. I don't know that it would. I just know that 22 O. December 2018. 22 our note was gonna go away, and that was my focus. 23 A. Yeah, because it depends on the time frame. 23 Q. Okay. But you weren't -- y'all weren't 24 Super G came in and wanted us to volunteer 2.4 concerned about some new note being issued? 25 25 A. Super G wanted you to -- wanted ACET Global to conversation in December of 2018 about having Super G go 4 volunteer the assets? 4 forward with a public auction and issue a new note to 5 5 A. I think it's called an ABC, an assignment for Windspeed that would replace the note between Super G and 6 the benefit of creditors. And I didn't want to do that. 6 ACET Global? 7 Q. Okay. And, now, what was that? 7 A. Yeah, this was in talks of how we were gonna 8 8 A. An ABC. It was new to me. An assignment for get the note off of us. I'm sure we discussed a lot of 9 the benefit of creditors, ABC. 9 different options, how it was gonna get off ACET Global. 10 Q. Okay. 10 Q. Okay. So you discussed a new note being taken 11 A. Would that involve assigning over the 13 13 assets to the creditor? concern for what was gonna happen to ACET Global. And 14 A. I think it would involve giving them rights 14 how Super G was gonna do it, whatever their politics 15 15 that we didn't agree to in the original documents, and I were -- because they would relay, you know, how they 16 think it was easier for them somehow, but I just didn't 16 were -- we were going to do the foreclosure and/or get 17 want to go outside what we agreed to before -- the 17 the note off of ACET Global. Was the voicemail that was left here not -- not sure what that is. 7 7 Q. Okay. So you don't know what this refers to from Steven Bellah? 8 8 when you say the "current structure"? A. I don't want to guess when we can all find out. 9 A. No, because it's at a point in time when things 9 If it is or somebody knows, tell me. I don't know. 10 10 were moving outside of that. Q. Okay. That's Option Number 2 right there, A. I don't know. 16 uh-huh. 16 Q. How did -- how could the current structure have 17 Q. Okay. And do you know what that is referring 17 saved time for Super G? 18 to? 18 A. I'm not sure that I can answer that, because 19 A. No, not with this siloed e-mail, but it lands 19 "current structure," that's a point in time. I'd have to know where we were at that point in time. Because it's 20 in time. And so with some context, maybe, but sitting 20 21 this "current," it's that "current." So I would have 21 22 Q. Okay. In the context of the dispute at issue 22 23 in this case? 23 Q. Right. And this is, recall, in December 24 MR. PERRIN: Objection; form. 24 of 2018. And just to put it in context -- and we'll go 25 A. That's a statement that sounded like a 25 through some documents to help refresh. Page 35 Page 37 1 1 question. Can you just add more to that for me. But Windspeed was formed in September 2 2 Q. PERRIN: Objection; form. A. I don't want to guess. 7 7 Q. Can you tell me what your -- you believe it A. I'm not sure. 8 8 could possibly be referring to? Q. (BY MR. FREEMAN) Okay. And what is -- what is 9 9 A. Maybe -- I don't know. Surrounding being -- what did you understand to be referred to here 10 foreclosure, maybe. I don't know. 10 by the statement "take our risks"? 11 Q. So Baymark Partners' position is it doesn't 11 A. I don't know. I know that there was a period 12 12 know what these first two options are referring to? of time when we were resisting Super G to try and keep 13 13 A. Not as we sit here without context, no. the company open, and they -- they were gonna do a 14 14 Q. And that's also the position of ACET Global, foreclosure. They probably wanted it to go friendly. We 15 15 correct, and all of the entities that you represent? were resisting that at this time. So it's December. 16 16 A. Correct. That was after they asked to do the friendly one that 17 17 ACET opposed. So we didn't want to make them angry. Who Q. Did Mr. Denegre also offer a third option, 18 which was to tell Super G that you were "not comfortable 18 knows? I don't know. 19 19 with the current structure and to move forward with a O. Okay. public auction and new note"? 20 2.0 A. I actually don't know. 21 A. Yes. 21 Q. And do you know what's -- what you understand 22 Q. Okay. And did he also state "This will create 2.2 the last sentence there, "more risky for Baymark," to 23 some frustration with Steve, but he will have to get over 23 mean? 2.4 24 A. Anytime you fight with any party, it's more 25 A. Yes, it does. We weren't very -- always 25 risky.

Page 38 Page 40 1 Q. So that was just concern about Super G? 1 Q. Okay. Well, what does -- what does "a new 2 A. You're saying "more risky for Baymark" is 2 note" mean here? 3 concern about Super G? 3 A. There was some discussion around how they were 4 Q. Yes, sir. 4 gonna get that note off of us, off of ACET. They had a 5 A. "More risky for Baymark" means it's more risky 5 problem with how it was going to get off of us. I don't 6 for Baymark, like, if we fight with Super G. think it was ever our problem. It was up to them. How 6 7 7 Q. Okay. So with the current structure, is that a they got that off is part of this. 8 8 concern, that Super G might foreclose on the assets of Q. Okay. And they were just offering to take a 9 9 ACET Global? new note from someone else? 10 10 A. I don't know if that's a concern. A. I don't -- I don't think -- I don't know what 11 O. Was that a risk for Baymark? 11 12 A. I don't know if it's a risk. 12 Q. What were they offering specifically about a Q. Well, how did -- how did Baymark bear risk with 13 13 new note? 14 respect to the then current structure? 14 A. They weren't offering us anything. 15 MR. PERRIN: Objection; form. 15 Q. What were they proposing as a possible 16 A. I feel like you're spending a lot of time on 16 scenario? 17 the then current structure, and I've indicated I'm not 17 A. Sorry, I didn't mean to -- no more than they 18 exactly sure what the then current structure was, but 18 were offering us a public auction. They weren't offering 19 it's -- it's knowable. And so asking these out of 19 us a public auction or a new note there. That's 20 context makes it difficult for me to give you the 20 something that they were going to have to do. They 21 accurate answers that you want. 21 weren't offering us a public auction. 22 Q. (BY MR. FREEMAN) Okay. But you are here as 22 Q. And -- but you don't know what this -- this 25 removed along with the assets. There was going to be a Page 39 Page 41 1 1 e-mail is referring to for risk for Baymark? foreclosure, take our assets away. And as part of that, 2 A. This particular e-mail, that particular 2 they were going to relieve our note, either wipe it out 3 3 sentence in the e-mail, no. or assign it or whatever, but it was going to be off of 4 4 Q. Was there a reason, you know, you forwarded ACET Global's books. 5 5 this voicemail without any -- any written explanation in Q. Okay. And why was that a problem for ACET 6 6 Global? your e-mail? 7 7 A. Is there a reason for nothing? I can't think A. I don't know that that was a problem. 8 8 of anything, no. Q. Was that a problem for Baymark? 9 Q. Did you believe Mr. Denegre would be familiar 9 A. I don't think so. 10 with the subject matter of the voicemail? 10 Q. And why would Steve be frustrated with this 11 A. I would assume so, yes. 11 third option? 12 12 Q. What public auction was being discussed here? A. Steve would be frustrated if we didn't make it easy for him to get those assets or whatever process he 13 A. I would assume that would be part of the 13 14 14 foreclosure process that Super G's looking at. wanted to do. 15 Q. And why would Baymark have indicated it was not 15 Q. Okay. Was Super G cooperating with Baymark or 16 comfortable with the alternative? 16 ACET at this point in time? 17 17 A. I don't know what you mean by "cooperating." I A. Well, that -- going back to my other answer, I 18 can't point in time. It's all figure-outable. 18 think we were talking about how they were going to -- we 19 If we're not comfortable with the current 19 either just hand them the assets or they're going to have structure -- like maybe the ABC, where they wanted ACET to take them from us. 2.0 20 21 to hand stuff over, so we told them, "No, go to public 21 And so I think making them take them from 22 auction and foreclose if that's what you want to do." 22 us would sound like we were not cooperating, but that was 23 That's what -- obviously, that would make Steve angrier. 23 still allowed under the original documents. So maybe I 2.4 They wouldn't like that. Super G wanted something easy. 24 would say, yeah, we were cooperating commensurate with 25 That would not be easy. That would be my guess. 25 the original documents in place.

And I'm not saying you're a bad guy, but for him, I could see he was getting beat up. And so I think my expression was to end his pain. He's already answered the question a few times. Just be quiet and let it set, because he was -- I can see when Matt gets uptight. He also has a hearing problem, too, so the whole thing was stressful for him.

Q. Were you concerned at all about the content of his response?

A. No, because -- again, I'm going from memory. I think he'd already answered a couple of times. I don't want to guess. The record will show if that's true or not. From what I remember, I think he had already answered two or three times. So I wasn't worried about the fourth answer, I guess.

Q. Okay. And if he hadn't actually answered the question previously, would there be any other reason for your statement?

A. Just my concern for Matt.

Q. Okay. And why would you -- why would you want for Mr. Denegre not to provide answers or elaborate on Page 76

A. Matt is a bit of a processing machine, so when

Q. With respect to Mr. Denegre, does he have a good memory, generally?

he has information in front of him, he can coalesce it pretty good. When he's away from it, he doesn't have, like, instant recall. He needs to, like, refresh the

6 like, instant recall. He needs to, like, refresh the 7 context.

So he's a very good analyst, but carrying trivia facts, after time, not as good. So -- but, you know, if you refresh his memory, he's good. But on recall, you know, 50/50.

Q. Okay. So difficulty recalling events?

A. I don't know if I'm better than 50/50. So I don't want to compare that in general. But, yeah, that's -- Matt's a very good processor. He just needs a lot of inputs at the time.

Q. Is he generally an honest person?

I know Matt to be very honest.

Q. And did you discuss Mr. Denegre's deposition with him?

21 A. No.

Q. What about Mr. Hook? Did you discuss

23 Mr. Hook's deposition with him?

A. Nope, I don't think I talked to either of

them -- other than a few sentences -- since, to make sure

Page 75

his answers during his deposition?

A. I wouldn't.

I mean, I think I spoke to him before his deposition and gave him instructions to answer truthfully and to wait until you finish asking the questions because there's times when Matt will jump in before you're done, and I know sometimes the questions can be long.

So I maybe talked to him two minutes. So that's the only advice I ever gave him.

Q. Did you have any concerns about how he was responding to a question inquiring about the importance of the foreclosure?

A. No.

Q. Do you believe that your statements during his deposition impacted Mr. Denegre's testimony?

A. I do not.

Q. Do you believe that he would have provided a more full answer had you not made that statement?

A. I don't think so. We can look at if he'd already covered that question or not, but I don't think it would have changed anything.

Q. I'll come back to probing that a little -- a little bit, but did you -- did you discuss Mr. Denegre's deposition with anyone?

A. No.

Page 77

that we didn't discuss it.
 Q. So we were speak

Q. So we were speaking earlier about Super G. And I'd asked if Super G had requested that Baymark put together a wind-down plan.

Am I correct that that occurred at some point in time?

A. Yeah. Hang on here. You're kind of stripping my gears, jumping around.

So we're back to did Super G ask us to do a potential wind-down for them. Yes, they did.

Q. And did Super G request, as well, that ACET Global put together a wind-down plan?

A. That's what I meant.

Q. Okay.

A. The ACET Global entities to put down itswind-down plan, yes.

Q. And that was a plan to wind down ACET Global, right?

A. Yes.

Q. Did Mr. Denegre work with Bill Szeto on thewind-down plan for ACET Global?

A. Yeah. He probably did.

Q. Okay. And were you aware of that?

A. I don't know if I'd need to be, but I -- I

would assume so. That's fine.

Page 78 Page 80 1 O. Okav. 1 he -- at some point when the company started 2 A. Just, for example, like, Bill Szeto is a really 2 underperforming severely, he turned it over to Matt and 3 smart guy, but I don't know if he's worked with a lot of 3 I -- or he delegated it to Matt and I to run it -- or to 4 banks, presentationally speaking. You know, Matt's 4 manage it at that point. 5 probably good at doing PowerPoints or garnering the 5 So as Matt was doing this with Bill Szeto 6 information that Bill Szeto didn't have, so . . . before we went to Super G again, he would send it to me 6 7 7 Q. Okay. Did you or Mr. -- Mr. Denegre ever ask just to make sure that if I wanted to look it over, I 8 8 Bill Szeto to make changes to the wind-down plan? could. It's an employee keeping his manager in the loop. 9 9 A. I'm sure if Matt said, "Hey, blue is a better Q. Okay. Did you look it over? 10 10 color than yellow," I guess that would technically be A. Lightly. I mean, there's not a lot to look at. 11 11 The main thing I'd look at is if Super G wanted to take 12 12 assets or wind down the business, I wanted to see if they Q. Any substantive changes? A. I don't -- I don't know. I think at this point 13 13 were gonna stick us with any costs. I think I probably looked to see if there was any things they were going to 14 Bill was pretty much in control. You've met Bill -- I've 14 15 met him a few times. He's a big personality, so he's --15 try and, cost-wise, stick ACET Global with. That's --16 he takes advice lightly. 16 that would probably be the extent of my review. 17 Q. (Shared screen.) 17 Q. Okay. And was this wind-down of ACET Global, 18 A. Is there something on the screen? 18 was this just an internal matter, or was that something 19 19 Q. There is. that was being discussed outside of -- outside of your (Deposition Exhibit 13 marked for 20 20 21 identification.) 21 A. I'm not sure of the "group" that you refer to, 22 Q. (BY MR. FREEMAN) Are you familiar with this 22 but I will tell you what did happen is I believe Super G 23 Exhibit 13 to this deposition? 23 requested this. Bill Szeto, I think this is his PowerPoint 2.4 A. Yes, I see it. 2.4 Q. And is this an e-mail from Matt Denegre to you 25 presentation, like 90 percent of it. Matt might have put 25 Page 79 Page 81 1 1 on September 10th, 2018? some touches on it, and then it went out. And I guess we 2 2 ultimately sent it to Super G at some point. 3 3 Q. And the Subject line, does it state "Corrected Q. Okay. 4 4 Version"? A. So those would be the parties, I guess: Steve 5 5 A. Canceled -- oh, "Corrected Version," yes. Bellah, Bill Szeto, myself, and Matt. 6 Q. And the attachment. Does that say "Winddown"? 6 Q. Okay. 7 7 It appears to be a PowerPoint. A. So I don't know about "groups," but I think 8 8 A. It does. "Winddown1-2" PowerPoint those are the parties. 9 presentation, yes. 9 Q. Okay. And just looking to the documents that 10 Q. Okay. And in Mr. Denegre's e-mail to you, he 10 are attached on the e-mail, is the second page of this 11 states, "Wind down plan for Super G for your review"; is 11 exhibit titled "Wind Down Plan"? 12 12 that correct? A. It is. Isn't that an opening of the PowerPoint 13 presentation? That's not in the body of the e-mail, 13 14 14 Q. And does this appear to be a true and correct correct? 15 15 copy of the e-mail correspondence between you and Q. Correct, yes. And does it refer to "Inventory Management, Fulfillment Management"? 16 Mr. Denegre? 16 17 A. Yeah -- you just talking about the top part, 17 A. It does. 18 not the bottom part where Bill said --18 Q. And appears to be discussing in the context of 19 Q. Yes, sir, but I'll scroll down so you see what 19 the wind-down of the "Current Location"? A. That would be ACET Global, correct. 2.0 was attached. 20 21 A. I'm sure this is an accurate e-mail. If you're 21 Q. Okay. What did you understand "Current 22 trying to make it authentic, it looks fine. 22 Location" to mean? 23 Q. Okay. Why did Mr. Denegre send this wind-down 23 A. Where do you see "Current Location," or did I 24 plan for your review? 24 25 A. Well, if you can recall David's deposition, 25 Q. I'm trying to highlight this for you.

Page 82 Page 84 (Indicating.) 1 1 Q. Was there a concept -- a broad concept of an 2 A. Yeah. Yeah. I don't know. 2 ACET Newco? 3 I don't know if we'd been threatened by the 3 A. No. 4 landlord yet. I think I was already getting notices. I 4 Q. An entity that would take the place of ACET? 5 don't think Tomer got them yet. 5 A. No. 6 So the landlord, I think, was threatening Q. Now, continuing on to the next page of the 6 7 7 exhibit, it refers to -- "Time Line and Cost For Wind to lock us out at this point, so there might have had to 8 8 have been contingency plans to move before the landlord Down" is the title. 9 seized all of our assets, and then we'd be really in 9 A. Um-hum. 10 trouble. Because that's what landlords usually do. 10 Q. And it states "Pay Bill's credit card," 11 Q. Okay. 11 "Reserve For One Month's Rent." 12 A. That's my guess. 12 And what did you understand "Reserve For 13 Q. Was there a plan to relocate the business? 13 One Month's Rent" to mean in this context? A. I don't know. That would have been Bill, but I A. I can assure you I did not read that at the 14 14 15 know there was a concern that the landlord was coming to 15 time, but I think it seems as if, if they were going to 16 change the locks, I think. 16 be in a new location, they thought they could wind down 17 Q. And in the second large bullet point, it refers 17 18 to "Sales and Office Staff" and talks about "Relocating 18 I think down below it says they can do it 19 to temporary office space with current office furniture 19 in two weeks. From 9-17 to 9-24, so maybe one week. So 20 and computers." 20 maybe they needed a month's worth of rent somewhere to 21 21 effect this. A. Yeah. I got ahead of myself. There it is. 22 Q. And lists a number of other items including 22 Q. Did this lead you to believe that maybe there "Customer Services," "Email Access," "Current Business 23 23 were not issues with the landlord at this time? Files"? 2.4 2.4 A. That's not debatable. It doesn't matter what I 25 A. Yes. 25 think. I have a lot -- I have e-mails. I've seen the Page 83 Page 85 1 1 Q. What did you understand all of this to be notes. I've seen the threats. It was an issue. It 2 2 doesn't matter what I think. That's a given. 3 3 A. I guess I walked into my own answer. If the Q. And below that, does it state "Perform Last 4 4 landlord was coming, then they needed to get a new Inventory prior to closing"? 5 location. So that's what they have to do so they 5 A. It does. 6 wouldn't lose their desks and chairs when the landlord 6 Q. And then below that, "Price inventory which can 7 7 locks the premises up. be sold or transferred"? 8 8 Q. Okay. So you were understanding this to refer A. Yep. 9 to continuing the business on -- at a new location? 9 Q. On the right-hand side, it refers to "Inform 10 A. Well, yeah. Winding it down -- it would be 10 Building Owner on Closing" and "Inform all Market Places 11 nice if a wind-down was, like, a one-day event, but I 11 on Closing" and "Inform all major customers on Closing." 12 12 think to wind down a business can sometimes take two or What did these mean? What did you 13 three months to process all the AP and the AR. 13 understand these to mean? 14 14 A. Reading them now, I hope that it would mean So you have to have some point of 15 operations to wind down so, I guess, that the lienholder 15 that -- tell all these people that the business is 16 has -- can get full value of its assets. So it sounds 16 closing. Quit calling me for payments. I was getting 17 terrible. Yeah, that -- I think that's what this lists 17 collection calls from DHL and FedEx, landlords, people. 18 down here, the winding it down. They've got to do it 18 So maybe if we tell them that they're closed, they would 19 19 stop. That's probably what that means. from somewhere. 2.0 Q. Okay. Was that somewhere going to be 20 And then also, there's some people like 21 Windspeed's offices? 21 the -- is there marketing in here? Market Place, yes. So the marketing -- you don't want people to continue to 22 A. No, I don't know that there's any concept to me 22 23 or Matt of Windspeed at this time. This is I think in 23 work, and then they'll still bill you later. So you 2.4 response to Super G asking ACET if they're gonna wind it 24 probably want to let them know to stop, is my guess in 25 down. 25 there.

Page 86 Page 88 1 O. Okav. 1 ACET Global? 2 A. It seems normal. 2 MR. PERRIN: Objection; form. 3 Q. And informing all the major customers? 3 A. So was there discussion, outside of the people 4 4 that I knew, about this? I wouldn't necessarily know. 5 Q. Was this intended to inform them that the 5 Q. (BY MR. FREEMAN) Yes, sir. 6 operations would be transferring to a new entity? 6 A. I don't mean to be snarky, but outside my 7 7 A. No. I think there's nothing in here to group? 8 indicate that. This is for wind-down only, not for 8 Q. Yeah. Outside of, let's call it, Baymark 9 transfer only. 9 Partners and ACET Global? 10 10 I'm just reading the title there, right, A. I don't want to state the obvious, but if we 11 "time Line" -- that you highlighted -- "and Cost For Wind 11 sent our wind-down plan to Super G, I bet they read it. 12 Down Only," yeah. 12 And if that person who read it talked to someone else, 13 Q. Was there any concern about the ACET Global's 13 then they were having discussions, but . . . 14 employees, their termination? 14 Q. Anyone else, like contractors? 15 15 A. Well, certainly. I was concerned about them. A. I don't know. I mean, on here -- you mean like 16 That's why I funded payroll all those months. So at the 16 the listing of notifying these people on here? Like were 17 end, I know that I would want to at least fund that last 17 they actually notified? 18 payroll hopefully, before they were terminated, so they 18 Q. Yeah. That would be one. 19 wouldn't work a week and get stiffed with no cash in the 19 A. I don't know. 20 bank. 20 O. Did Baymark Partners refer Lori Barber or her 2.1 Q. Okay. Was there -- was there any concern that company to Windspeed Trading? 21 22 those employees would not have new employment? 22 A. We did. 23 A. I always worry about that with employees that 23 Q. Okay. How did that happen? 2.4 work for a company. When you go out, you always want to 24 A. At some point, as an effort to keep the 25 make sure they have unemployment. 25 business growing or to get it -- whatever -- Lori Barber Page 87 Page 89 1 1 Q. Were there discussions -does marketing, internet marketing. And so we brought 2 A. It would have been a concern. I'm sorry. 2 her in to help pump up the company as well. I think that 3 3 Q. Oh, no. Were there discussions about how to was early on. I don't have the dates. I don't think we 4 line something up for them? 4 ever charged ACET for that. I think Baymark, since we 5 A. I don't think this indicates that, and I 5 had a little relationship with Lori, we paid the tab for 6 didn't -- I didn't know how to do that. 6 Lori to come in and try to help ACET. So she's an 7 7 Q. You didn't. Were you the president of ACET internet marketer. I think Lux24 is who she is. 8 Global at this time? 8 Q. But was she helping Windspeed? 9 A. I believe David was the president of ACET 9 A. I don't -- I don't -- I wouldn't know. 10 Global and had delegated the work to Matt and I. But 10 Q. Okay. 11 that's not a distinction that -- that matters that much. 11 A. She -- like, she works on a few of our 12 David had delegated to me -- Matt and I at 12 portfolio companies, but she has a lot of other clients 13 that time. So I was acting under his direction and 13 as well. She has the knowledge of the ACET stuff. If 14 auth- -- or under his authority. 14 Bill Szeto wanted to keep her on afterwards or pay her, I 15 Q. Okay. So at this time you had assumed 15 don't know. 16 responsibility, we'll call it, on behalf of David Hook or 16 (Deposition Exhibit 5 marked for 17 17 on behalf of Baymark Partners to oversee ACET Global? identification.) 18 A. That's right. The typical -- the management 18 Q. (BY MR. FREEMAN) Okay. I'll put what's marked 19 relationship that we had was still in place. We 19 as Exhibit 5 on the screen for you. (Shared screen.) 2.0 controlled the board, and that was our job, to put the 20 Do you see that? 21 right people in place to operate it. And that hadn't 21 A. One second. We have a big conference room 22 changed. Even if it went from David to me, it was still 22 screen and a laptop here, which is a lot easier to see. 23 Baymark -- under the Baymark agreement. 23 Okay. Yes, I see it. 24 Q. Okay. And you indicated -- was there 24 Q. And I'm specifically looking down at an e-mail 25 discussion outside of your group about the wind-down of 25 towards the bottom of the first page.

Page 90 Page 92 1 A. Um-hum. 1 actually taking in the foreclosure. 2 Q. Is that an e-mail from Lori Barber to -- to 2 Q. Okay. And in your role, with respect to ACET 3 Matt Denegre, you, and Andy Waltman, all of you at 3 Global, prior to the foreclosure sale, did Super G ever 4 Baymark Partners? 4 5 5 A. That would be Bill Szeto, but I believe they A. It is. 6 6 Q. And the Subject line, "Luluway Fan Page"? 7 7 Q. You believe that Super G did direct that it A. Um-hum. 8 Q. So who is Lori Barber? 8 would take possession of the inventory prior to the 9 9 A. She's the owner or she's associated with foreclosure sale? 10 10 A. I don't think I said "take possession." I Lux24 -- or 214, I'm sorry. I just saw the e-mail. It's 11 11 mean, that sounds like a very physical thing to do, like 12 12 guys with, you know, trucks taking it. Q. And this e-mail's dated January 7, 2019? 13 But they can guide, direct -- if the loan 13 A. It is. is in default, those assets are theirs. They have 14 Q. And does she begin her e-mail by saying, "I 14 15 15 dominion and control over them at that point. So there's know you're in the process of winding down Acet"? 16 A. Yeah. 16 a lot of influence that they get the second the senior 17 Q. Okay. Now, why was Miss Barber -- why was 17 loan goes into default under the Security Agreement 18 Miss Barber aware of the winding down of ACET? 18 that -- like I said, the original agreements we tried to 19 A. Well, what -- I don't know. But this is Lori 19 follow that all three parties agreed on. 20 Barber to Matt, so I wasn't on these communications. 20 Q. Okay. Now, dominion and control sounds like a 21 physical thing. Is that what you mean? 21 But at that time, the company -- what is 22 this, in January of '19? 22 A. Fair enough. Same thing I said on the 23 23 possession. It -- I'm just trying to put together the O. Yes, sir. Security Agreement. From what I understand, there's a 2.4 A. So I think the ACET Global and ACET Holdco 24 25 lot of things that they say they can do, and it covers 2.5 were -- nothing was happening at that point, I think, Page 93 Page 91 1 1 after somewhere in mid-'18s, when we stopped funding basically everything. 2 payroll. It was -- so we would tell Lori Barber, you 2 Q. And what leads you to believe -- what do you --3 3 know, politely -- we wouldn't say, "Hey, we don't like what do you base that testimony on that you observed? 4 4 you, we don't want to use you." We're just saying, "Hey, MR. PERRIN: Objection; form. 5 5 this business is going to be going away or stop A. I would love to answer that question, but it's 6 6 functioning right now, so quit racking up costs that based on my testimony. I'm not sure what "base that 7 7 Baymark's going to have to continue to pay." testimony on that I observed." 8 8 Q. Okay. Did -- did Windspeed take over using the Q. (BY MR. FREEMAN) Well, so -- let me -- let me 9 9 Luluway website? ask you -- and it is fickle, and that's -- that's fair. 10 A. If Super G gave it to them, then they did with 10 I understand your testimony to essentially 11 it whatever they wanted to do with it. 11 be that prior to the foreclosure sale, Super G did, in 12 Q. Did ACET Global ever allow Windspeed to use the 12 fact, exercise rights and control over ACET Global's 13 13 Luluway website? inventory; is that correct? 14 14 A. I wouldn't know so or -- but, again, that would A. Two things, yes. I believe they had the right 15 15 be encompassed of the assets that were under the guise of to, and I believe they did. 16 Super G's inventory or note or Security Agreement, and so 16 Q. And that they actually took action with respect 17 if there was a direction by them to make it work, then I 17 to that inventory that reflected or was intended to 18 guess they have the right to do that. 18 demonstrate their control over that inventory? 19 Q. Did you understand that Super G had the right 19 A. I -- that's a nuanced question, so I don't have an answer. But I would interpret it, Super G told Matt 2.0 to transfer those assets prior to the foreclosure sale? 20 21 A. I think their Security Agreement says that they 21 or told Bill, "Hey, sell a necklace and give me the 22 can take possession. They can do what they want. They 22 money," or, "Do something with it." 23 can hypothecate. They can sell. 23 Just something as simple as that, "Hey, 2.4 There's a -- I don't have it in front of 24 sell a necklace." That would be an exercise in 25 me, but, yes, I think that they can take control prior to 25 control --

Page 94 Page 96 1 O. Okav. 1 A. I don't believe so. I think we were -- we were 2 A. -- pursuant to their Security Agreement. So --2 communicating directly with Super G because that was --3 but nothing like you said, here is an official document 3 at that time, that whole period is when they asked us to that says, "I'm exhibiting all control," you know, 4 do the friendly foreclosure or the ABC, whatever you want 5 something very black and white like that. I never saw 5 to call it, the California thing. And we said no. 6 6 anything like that. They were talking about, "Well, maybe we'll 7 7 Q. And what leads you to believe that that may just sell all the assets or we'll do a wind-down and take 8 8 have occurred? the assets." 9 9 A. The fact that Super G was in communication with Or we'll do a -- they didn't say 10 Bill Szeto. That's what that would lead me to believe. 10 foreclosure at that time. I kind of made them do that, 11 Q. Okay. Who at ACET was Super G in communication 11 or suggested that. So, yeah, there was communication 12 with about the assets at that time? 12 amongst all parties. 13 13 A. Well, that would be Bill Szeto. That would be Q. Okay. But you didn't have any communications 14 the -- what did we say "that time" -- before I start 14 with Bill Szeto about what he was discussing with answering, what time is "that time"? Back then -- '19? 15 15 16 Q. Yeah. Let's put it from October of '18 on 16 A. No. We were -- ACET Global was, again, trying 17 until whenever the foreclosure sale occurs as the end 17 to enforce our rights and concerned that -- our immediate 18 date 18 concern was that -- were they gonna take our assets, and 19 19 then we'd be dead in the water, or if we could put them A. Yeah. 20 20 Q. During all that -- during that time, are you off longer. 21 saying that Super G was in communication with Bill Szeto 21 So that's what we were communicating. 22 of ACET Global? 22 That's why we resisted the friendly foreclosure, if we 23 23 A. Yes. can use that to refer to that ABC thing. 24 24 Q. Okay. And what was Bill Szeto's position at Q. Did -- did you have the impression that Bill 25 ACET Global at that time? 25 Szeto was in communication with Super G during that time? Page 95 Page 97 1 1 A. He was the CEO. A. I do know that he communicated with them. I do 2 Q. Okay. Had he been delegated full authority 2 know that at first, when he first got hired on, early on, 3 3 over ACET? he had a meeting with them. And then Super G was 4 4 A. The CEO operates -- the board of directors communicating with us how Bill was doing. 5 5 hires the guy, and then the CEO does everything else. And at some point, they stopped talking to 6 So, yeah, full authority. 6 us, and they were talking to Bill at that point. I don't 7 7 Q. Okay. And were you in -- was Bill -- was Bill know if Bill initiated that. Like I said, he's a big 8 8 Szeto in communication with anyone else at Baymark personality. I wouldn't be surprised if he reached out 9 9 Partners or at ACET Global about the status of ACET and took that over. 10 Global's inventory during that period? 10 Q. Okay. And what -- what led you to believe that 11 A. That's very specific. I think we were getting 11 they were talking directly with Bill Szeto? 12 12 updates, minimal updates on P&L, or updates of the profit A. No more than what I've indicated here. 13 13 and loss of the business after some point in time. Q. So nothing else specific? 14 14 It went into kind of a stasis mode where we A. (Shook head.) The intangible assets are basically 2.1 21 business? 22 the amount that we overpaid for the business that gets 22 A. Other than generally, I'll do one better. That 23 applied to goodwill. It's a plugged figure when you 23 specifically is the wiping out of the goodwill. acquire a company, yes. Q. Well, this is -- so what's reflected here on 2.4 2.4 25 Q. And the balance at the end of the year of 2019 25 page 17 of this -- this Exhibit 43, is that -- that is Page 135 Page 137 1 1 is zero? related to ACET Global, correct? 2 A. Yeah, I think that's commensurate with A. We're on the same return, right? Baymark ACET 2 3 3 the . . . Holdco -- yes. So ACET Global, that's right. It's 4 4 Q. With the foreclosure? rolled up into one. 5 5 A. Yeah, or cessation of the operations of the Q. And -- okay. If that is -- and I understand 6 business. 6 what -- your testimony. 7 7 Q. Okay. But why does the "Proceeds" column reflect 8 A. I know we filed a bankruptcy -- might have been 8 a little over \$2.9 million in proceeds? 9 in '19 -- this might reflect, but it should have been 9 A. Say it again. So that's, again, just the 10 postbankruptcy, I'm guessing. 10 wiping out of the goodwill account. We all know -- and 11 Q. Okay. And there is also on this tax return a 11 I'm gonna tag you with that knowledge -- especially that 12 form set out on page 17. It's -- and I'll scroll right 12 that's not cash received from any sale. up. It's part of a Form 8948. 13 13 That would be when you zero out the 14 A. Um-hum. 14 account, it has the goodwill account -- the resultant 15 15 Q. And it references a "Sale From Foreclosure." goodwill account. And when you wipe it out -- you know, 16 16 the IRS doesn't give you a "Goodwill" column, so I think Q. And it references the "Date acquired" of the 17 that's the column you put it in. If it's not the right 17 18 assets at issue as 7-21-17? 18 column, when you wipe out the goodwill. So the out---19 A. Um-hum. 19 outcome is the same. Q. And then the "Date sold or disposed of" as 2.0 20 Q. Okay. But there was no receipt of 2.9 million? 21 January 1, '19? 21 A. No. 22 A. That's right. 22 Q. Did Super G ever pay 2.9 million? 23 Q. Do you understand this to be related to the 23 A. Because if there was 2.9 million, you'd have 24 assets purchased from ACET Global -- or, excuse me, the 24 one entry, and then you'd still have to wipe out your 25 assets purchased from ACET Partners Venture LLC? 25 goodwill. You'd still have two entries resultant to

Page 138 Page 140 1 1 that. So that's goodwill. And no one's ever asked to So, again, it's a work paper that's easy to 2 2 see the work papers. If it becomes an issue, it's very obtain from the accountants. I'd be glad to walk through 3 3 that at any time. 4 Q. Why isn't there, instead, a loss reflected with 4 Q. Well, is there anything on here, reflected on 5 5 this Schedule L balance sheet, that somehow nets to the no sales proceeds? 6 A. A loss. That's different than the closing out 6 7 7 A. That would be my -- I believe so. of the account. I mean, if we want to get into the work 8 8 papers of the tax accountants, I'd be glad to do it. Q. Do you know what it is? 9 9 It's something easy to resolve. It's not a mystery, A. No, I don't. I'd be glad to get that for you 10 10 after the call. 11 Q. Well, I mean, I'm trying to understand why it 11 Q. Okay. I appreciate it, and I will take you up 12 12 reports proceeds of \$2.9 million. on that. 13 13 A. It's the wiping out of the goodwill account. A. I'm not saying that in passing. I mean it. 14 The resultant amount of the goodwill account that was 14 Q. There were also -- on page 18, there are 15 15 reported management fees. there upon the initial acquisition. So zeroing that out, 16 16 that's how it presents on the Schedule L. A. That's correct. 17 Q. Okay. 17 Q. About -- almost \$180,000. Now, did Baymark 18 18 ACET Holdco take a deduction for accrued management fees? A. If we go much further, we're going to expend my 19 19 knowledge. A. I believe they did as an accrual accounting 20 20 repair because this isn't a cash -- this isn't a cash I do have some passing knowledge of this, 21 return; this is accrual basis. The amount of obligations 21 at least to get us to this point. But having me go 22 22 further and explain it into the point where it's not that they had for the management fees were put on the 23 23 truthful versus the facts -- it's easy to discover. It's books. They were never paid. So eventually that would 24 get zeroed out, I'm sure. 24 not even that controversial. Q. Okay. But Baymark ACET Holdco did report 25 Q. Okay. 2.5 Page 139 Page 141 1 proceeds of \$2.9 million related to the disposition of 1 A. That's accrual basis. 2 2 Q. And there's also an item on here "Accrued ACET Global in 2019? 3 3 Interest Expense"? A. We can do it like that. 4 So in our tax filing where it requires you 4 A. Um-hum. 5 5 to record this information, the columns, as they're Q. Do you know what that refers to? 6 labeled, required us to put the amounts in the label that 6 A. I don't. But I'd be glad to, along with 7 7 is coincidentally entitled "Proceeds" but, however, that -- if you star that, I could get you the work paper 8 reflects the goodwill wiping out of the account because 8 where that -- where work went into that. 9 there's not a "Goodwill" column up there, if I'm not 9 Q. Nice. Okay. 10 mistaken. So that's my answer. 10 You had mentioned that ACET Global had 11 Q. Okay. I'm just going back to the Schedule L. 11 filed for bankruptcy? 12 Where is that \$2.9 million reflected? 12 A. (Nodded head.) 13 A. So from what I understand -- I have to see the 13 Q. And was that in October of 2019? 14 papers, but when you have the amounts that you're wiping 14 A. That sounds about right. 15 out, you have the original goodwill that was there. 15 Q. Okay. A. If you can get the date, I'll confirm it for 16 Before you zero it out, it's offset against either some 16 17 other resultant payables or liabilities. 17 18 So there's something that you net against 18 Q. I'll pull the petition up. One second. 19 the -- so you have the outstanding payables -- or 19 (Shared screen.) 2.0 something that you net against the goodwill. So the 20 A. Okay. 21 amount that you see is the resultant goodwill. It's not 21 (Deposition Exhibit 11 marked for 22 just a dropped goodwill from here to there. There's a 22 identification.) Q. (BY MR. FREEMAN) The petition should be on 23 netting against those in that column. Because, again, it 23 2.4 doesn't say just "Goodwill." It's a conglomeration of a 24 your screen as Exhibit 11 to this deposition. 25 couple of things as well. 25 A. I see it.

Page 142 Page 144 1 Q. And did you file this -- this bankruptcy 1 So, like, when we're talking about the 2 2 business in total and we say "inventory," we're just 3 A. Yes, I'm sure my name's on it. We got 3 talking about the sellable stuff we buy from China. 4 counsel -- never done a bankruptcy before, so we got 4 I think here we're talking about inventory 5 counsel and met and helped us put it together. Yeah, but 5 of everything that's in the business, including chairs 6 I signed it. Reviewed and signed it. 6 and desks. 7 7 Q. And were you the -- you signed it, and I'll --And then there's -- I think there's another 8 8 I'll go to the page. layer to everything that's of this. 9 9 But did you sign it as president of ACET I don't know that they're -- and my 10 Global? 10 bankruptcy counsel guided me on this. But I think 11 A. I did. I did. 11 there's also a concept where it's not an inventory of the 12 Q. Okay. And were you, in fact, the president of 12 debtor's property if it has a lien on it. So it would be 13 ACET Global? 13 the unencumbered items. A. Probably at that time, to sign this, maybe we 14 14 But -- so that's -- I guess upon the long 15 went ahead and gave me the official title of president to 15 discussion of it, that's where we end up with the "no." 16 sign this instead of David signing it, but one and the 16 Q. Okay. And there's a listing in Item 28 of the 17 same. It was authorized by him or I. 17 "debtor's officers, directors, managing members," you 18 Q. Okay. And on this bankruptcy petition, it 18 know, "people in control." And it lists Baymark ACET 19 listed a \$3.2 million -- \$3.2 million note owed to 19 Holdco, LLC, as the only person or entity. 20 creditor, a secured -- a secured claim in favor of ACET 20 Do you believe that to be correct? 21 Venture Partners LLC; is that correct? 21 A. Yeah. I think before, like on that tax filing, 22 A. We might have overstated the amount, but that's 22 that Holdco is the one person who owns the interest of 23 the seller note. Maybe we went too big on that. And 23 Opco, which is ACET Global. ACET Venture Partners -- I think that's who that was owed Q. Okay. And Item 29 it asks, "Within 1 year 2.4 24 25 to. I'm sure we looked at the note. before the filing of this case, did the debtor have 2.5 Page 143 Page 145 Q. Okay. And so this was a recognition that there 1 1 officers, directors, managing members . . . in control of 2 was, in fact, a note of 3.23 million or thereabouts owed? 2 the debtor who no longer hold those positions?" 3 A. It was. 3 And it checks "No." Do you believe that to 4 Q. The -- let me go down just a bit. (Scrolling.) 4 be correct? 5 5 Now, there was a -- there's a question on A. So let me see here, what it's asking. 6 here -- or a series of questions. 6 (Reading.) So "1 year before the filing of this case, 7 A. Are you trying to give me vertigo? 7 did the debtor," which is -- for this one just is Opco, 8 Q. What's that? 8 correct? Call it Opco, but -- "director, officer, 9 A. Are you trying to give me vertigo? I mean, I 9 members in control of the debtor, or shareholders in 10 10 control of the debtor . . . " 11 Q. I'm getting it myself. 11 Or the shareholder? Who's in control of 12 A. All right. 12 the shareholder? Q. It's a little bit difficult. 13 13 Q. I think it's saying ACET Global, and it's Let me see if I can get this thing there. 14 written broadly enough to include a shareholder in a 14 15 (Scrolling.) Okay. 15 corporation. So I am on page 24 of the petition, and 16 16 A. Yeah, so it's --17 this is part of the form. And it -- I'm looking 17 Q. (Audio distortion.) 18 specifically at page -- or Item Number 27. It references 18 A. Yeah, it's probably referring to "did ACET 19 inventories and asks, "Have any inventories of the 19 Holdco change," is how I read this. 2.0 debtor's property been taken within 2 years before filing 20 Q. Okay. 21 this case?" And it's checked "No." 2.1 A. I don't think ACET Holdco changed. 22 Do you believe that to be correct? 2.2 Q. Well --23 A. I do. But this gets into some very nuance-y 23 A. I discussed that with our bankruptcy counsel, 24 stuff between bankruptcy definitions of inventory versus 24 25 what you and I do. 25 Q. Wasn't ACET Global the debtor here?

Page 146 Page 148 1 A. Yes. 1 Q. Did you disclose to them the Baymark interest 2 Q. And did it have any officers who had been in 2 in Windspeed? 3 control of it who were no longer in those positions? 3 A. I don't know whether I did or not, or if it was 4 A. Through -- it's reaching up to the Holdco 4 relevant. 5 5 Q. Okay. But hadn't -- hadn't Windspeed acquired level. So those didn't change. 6 But maybe you're referring to Tomer. So 6 ACET Global's assets? 7 7 Tomer was a CEO at the debtor level. So maybe that would A. Yeah, you're gonna try to catch me in an 8 8 be considered, I'm not sure. I guess it might be. ignorance loop here because I think I mentioned before, I 9 9 Q. And Mr. Szeto. seem to remember, in Bankruptcy Code, the definition of 10 A. What's that? 10 the debtor's assets doesn't include anything that has 11 Q. Mr. Szeto. I think earlier you had said he was 11 liens on it. So if it had liens on it, it was never the 12 the CEO and had control? 12 debtor's assets to be considered that they were 13 A. That might -- yeah, that might apply here. 13 transferred out. Q. Okay. And then didn't you also become 14 14 I might be mistaken, but that's, again, a 15 15 president and there was a switching between you and bankruptcy issue that I'd be glad to check on. 16 Mr. Hook? 16 Q. And where did you obtain that understanding --17 A. Yeah. The -- yeah, that's right. The 17 or where did Baymark attain that understanding? 18 president's a signatory -- well -- but that's fine. 18 A. We had bankruptcy counsel that reviewed this. 19 Q. And so does this Number 29 appear to be 19 Q. And do you know specifically whether you or any 20 answered correctly? 20 of the Baymark parties informed bankruptcy counsel about 21 Baymark's stake in Windspeed? 21 A. I'm gonna have to defer to my bankruptcy 22 counsel, but I'd certainly have him look at it again. I 22 A. I don't want to review my discussions with 23 know -- I'm sure we discussed it before. 23 counsel, but they were well aware of all relevant facts. Q. Okay. And Number 30 refers to payments or Q. The next question here asks, "Within 6 years 2.4 2.4 25 distributions to insiders and asked, "Within 1 year 25 before filing this case, has the debtor been a member of Page 147 Page 149 1 1 before filing this case, did the debtor provide an any consolidated group for tax purposes?" And we just 2 insider with value in any form . . . including 2 looked at a tax return in which the debtor was rolled up 3 3 options . . . ?" into another group. 4 Is -- does this appear to be answered 4 Do you know whether this question was 5 5 correctly? answered correctly? 6 6 A. Let me look. Just give me a second to read A. Well, again, so this is a combination of tax 7 7 this. (Reading.) "Did the debtor," that would be Opco, law versus bankruptcy law as well. There's many times 8 8 "provide an insider any form of value," so that's Tomer, when single member LLCs are disregarded for taxation 9 "salarv." 9 purposes and treated as an entity versus when bankruptcy 10 Probably should have put Tomer on here. 10 might adopt the tax laws versus not, so that's a level 11 And "credits" and "stock redemption." I don't know that 11 where bankruptcy counsel would certainly guide us through 12 12 any other stock was issued. Is this from the Opco? So do we issue 13 13 Q. Okay. And was that a specific issue raised? 14 14 equity of the Opco is what it's asking here? Again, A. I'm sure all issues in these questions were 15 normally I have the bankruptcy counsel walk me through 15 thought out and discussed with bankruptcy counsel to fill 16 this, but I just want to make sure we're --16 this out. The whole reason you hire bankruptcy counsel 17 is to do it correctly. If not, I could have done it 17 Q. Was this an issue that was given any focus in 18 the filing? 18 myself. That's not true; I couldn't have done it myself. 19 A. Well, I'm sure the bankruptcy counsel -- this 19 Q. Is -- and that's your signature on page 25, 2.0 is all they do all day long, and this form is what, 40 --20 right? 21 I don't know how many questions it is. But if that's all 21 A. It is. 22 they do all day long, I'm sure they get pretty good at 22 Q. And lists the position as "President"? 23 doing 40 questions or however many are here. 2.3 A. Correct. 24 So -- but, yes, it was a focus to --24 Q. Who prepared the bankruptcy documents? 25 certainly an intent to fill it out correctly. 25 A. Michelle Shriro at her law firm. I'm drawing a

1 Global. DHL, FedEx, and the landlord started calling us. 2 So once it was a shell and all the assets 3 had been pulled out of it, all we had were these debts 4 and this noise. We needed to just shut it down because 5 it was -- it wasn't in business anymore at that time. 6

Q. Okay. Were you considering -- and, well, let me ask: When was that timeline-wise?

A. So the serious, leading up to the bankruptcy, or would be just prior to that, after the foreclosure. They -- Super G took everything that they had a lien on. Then all we had were the debts that were left behind and just clean it up.

Also let everybody know that it's been discharged so they can write it off on their books. DHL stopped calling; landlord quit bugging us.

Q. Were you first considering bankruptcy then, like in -- is that late 2018 or . . .

18 A. I don't know. It would be '19, I guess. So 19 when was this filed, you said? 2019?

Q. October 2019.

21 A. So probably before that at some point. I'm not 22

23 Q. Okay. Were you considering, you know, bankruptcy shortly after acquiring the assets that were 2.4 25 placed into ACET Global?

Page 156

How to keep the company going because it needs cash flow.

At some point, if it has the EBITDA, it's 3 throwing off a lot of cash, you can pay off your 4 creditors and you control the business as well. But if 5 you can't buy product, no one gets paid.

Q. Was there, in fact, a plan in 2017 to take ACET Global into bankruptcy?

A. There was no plan.

Q. And so looking at Exhibit 34, was that an e-mail from David Hook to you?

A. Oh, there you go. Just sent -- yeah. So that's 2017, right. Like I was saying. So, yeah, I'd say this was to me, December 13th. I'm assuming this

Q. Okay. And was there, like, an expensive dinner with Super G in December of '17?

A. I don't know.

18 Q. There was something about a \$680 dinner, I 19 think, that Mr. Hook had e-mailed you about?

A. Uh-huh.

21 Q. Was that with Super G?

> A. Can I see the rest of the e-mail with the dinner on it?

Q. Sure. (Scrolling.) Going down to the second 24 25 page.

Page 155

A. No. I think when the thing went downhill so fast, everybody was panicking. And so we -- we had this initial meeting where we had to go to the bank for the first time and say, "Look" -- this is never good to do -go to the bank after, what, four or five months and say, "This isn't performing well." They're gonna look at us, and we're not gonna just say, "Too bad, so sad." We're gonna say, "We're gonna work with this, but you're gonna have to cut your payments so we have enough cash to survive."

And they have to decide if they're gonna work with you or not. Just let them know that this is a dire situation, we all gotta lean in so this thing can survive, and we all -- you know, all the creditors get paid back. Because, as an equity holder, I don't make any money until after the creditors get paid back.

So, yeah, I'm sure we had talked about all kinds of things. Because I know before that December '17 -- that 2017 conversation was the first time when we went to Super G, and that's when they said, "Tough. Put in more money."

Q. Is that the first time you considered bankruptcy, or was it after that?

A. I don't know that we seriously considered bankruptcy, but you consider what you're going to do. Page 157

1 A. Okay. Yeah. So that was around our firm 2 dinner. That's -- I think I was finding out how much we 3 paid on our employees. So I'm just talking to David down 4 here. Like, he's at a conference, like Tony to David. 5

My "Conference is good. Am I missing anything? I enjoyed our dinner. We should do it again. How much was it?"

So we'd started doing firm dinners at that time for Baymark.

Q. Okay. And then did you --

A. And we got off pretty cheap for the whole firm for 680. That's not --

Q. Actually, that's pretty good, I will -- I will say.

Did you -- did Mr. Hook make a statement back saying "What about bankruptcy for ACET?"

A. Um-hum.

18 Q. And what did he mean by that?

A. I think -- is there more conversations there? Because I know we were talking about -- oh. Yeah,

21 Super G doesn't -- because their payments were 15---22 they were like \$15,000 a week or every two weeks or

23 something like that, and that was just sucking out all

24 the cash. And so they to pull off of that, and if not, 25

it's going to be -- it was going to be done quick.

Page 158 Page 160 1 Q. That's something y'all were having oral 1 at the time. 2 conversations about? 2 I feel like "insolvent" might be, like, a 3 A. Well, I mean, we were getting the financials 3 term of art or something that bears more weight than us 4 from the business right after we closed, and we closed 4 trying to do it because -- trying to keep the company 5 in, what, July 24 of '17. 5 going. So after that you start looking at it, and 6 Q. Well, was it -- was it bringing in enough 6 7 the EBITDA went from, I think -- we closed -- we thought 7 revenue to -- to pay its bills? 8 it was 1.2, and we closed in July. 8 A. It was not able to catch up on its old bills. 9 9 It turns out when we got the July We were getting calls. Yeah, there was definitely 10 financials, it was 1.1 in EBITDA. It's okay the number 10 difficulty there. 11 isn't exactly the same. And by December, I think it was 11 Q. Okay. How long had it been that way? 12 like 100,000. So it's 90 percent wrong. So the 12 A. Off and on since December or January. Q. Okay. Did you believe that restructuring ACET 13 EBITDA -- and it's in five months. And so you don't need 13 to do subtle math to figure out that that's a problem. 14 14 Global might give Baymark an opportunity to turn its 15 15 investment around? Q. Not gonna work. 16 A. Is there more below this one right here? 16 A. So restructuring -- and I'm not sure what you 17 Q. No, sir. (Scrolling.) 17 mean by "restructuring," but I'll state it more 18 A. Okay. All right. 18 specifically. Getting relief from the debt payments 19 Q. And did you -- did you respond to that, say "It 19 sucking out all the cash would give ACET a chance to increase its EBITDA. And if it did that, the debt 20 may be an option"? 20 A. Yes, I did respond to that, and that's what I 21 holders get paid off first, and then possible for the 21 22 22 equity guys later. But, yeah. 23 Q. And Mr. Hook said "Agreed"? 23 You do the restructure -- remember when we 2.4 A. He did. 2.4 went into the business, we put an additional \$200,000 in 25 Q. Now, was there any relationship between the cash to buy product. And we thought we had a lot more 25 Page 159 Page 161 1 formation of Windspeed Trading LLC and ACET Global? 1 working capital day one. And we found out later it was 2 light about 360 -- \$350,000 of working capital. 2 A. None. 3 3 Q. None? So we were missing some -- that was a 4 A. None. 4 significant kick in the cash -- negative in the cash day 5 Q. Was ACET --5 one. So we were chasing that right out of the gate. A. Weren't they years apart? 6 Q. Okay. And wasn't there, in fact, an adjustment 6 7 7 Q. Excuse me? of the purchase price as a result of the operating cash 8 A. Weren't they years apart? 8 you've referred to? 9 Q. Oh, the for- -- the two formations? Well, 9 A. That's right. I don't have the exact amount, 10 I'm -- so I'm asking was there a relationship between 10 but it's about 350. 11 ACET Global and the formation of Windspeed Trading? 11 Q. And did ACET Global ever fully tap its line 12 A. No. 12 with Super G, its million dollar line? Q. At around that time, around the time of the A. I don't know that it had a line. Did it? Like 13 13 14 formation of Windspeed, was ACET insolvent? 14 a revolver or something? I don't think it did. 15 A. You'll have to let me know -- and I'm sure it 15 Q. And initially didn't it have a million dollar line that it took 750 on? 16 was in those filings documents you went by. When was 16 A. I don't -- I don't know that to be true. I 17 Windspeed formed? 17 18 Q. I'll represent that it was formed in September 18 don't think so. 19 of 2018. 19 O. Well --2.0 A. Okay. So now that I understand, what was the 20 A. And if so, once they saw the performance, I'm 21 21 sure they -- once we went into default, they took that 22 Q. Around that time, was ACET Global insolvent? 22 back pretty quick. 23 A. I don't think so. I think just prior to that, 23 We wouldn't have known about the working 2.4 we were still putting money in for payroll to try and buy 24 capital adjustment until months after the close, and by 25 us to another week. So we were still making a go of it 25 then, I think the performance was already in trouble. So

Page 162 Page 164 1 I don't -- I can check the time, but I'm not . . . 1 viable. 2 Q. To my question, I'm really asking not about 2 Q. Okay. Did Windspeed Trading maintain the 3 restructuring a note but restructuring the entity or the 3 financial records of ACET Global? 4 relationship among entities to conduct the ACET Global 4 A. I don't know how to answer that. I mean, no. 5 5 They were separate companies, and they had separate business. 6 In that sense, did you believe that 6 books. But at some point -- it was the same employees 7 7 restructuring ACET Global, or its business, would give doing both, I assume. 8 8 Baymark an opportunity to turn its investment around? Because at one point, if they were ACET 9 9 A. No. I don't know about restructure. You have Global's employees keeping the books, I could see how 10 10 a triage situation where if you don't have cash flow in whenever they ended up getting pulled over to the 11 the business, nothing else matters. And even if you 11 Windspeed entity, they -- I could see them either opening 12 restructure it and it doesn't give you more cash, none of 12 new books or accidentally putting their books on ours. 13 13 that structure matters. So you need the cash. So, yeah, there's same people, same software. I could And the only people taking the cash -- and 14 14 see how they're -- it would be important to keep -- try 15 I think they could pull it out of our account without us 15 and keep them separate. 16 even asking -- was Super G. 16 Q. Did Windspeed have the same software? 17 They actually made direct withdrawals 17 A. I would assume. I don't know. 18 without our permission. We did give them permission. I 18 Q. Why would you assume that? 19 take that back. So that was part of their loan 19 A. Well, because if Super G took all of our assets and then sold them to Windspeed, I don't -- I don't know 20 agreement, but . . . 20 21 So the only restructure that matters is if 21 that they would have other stock. 22 we get cash to buy profits. 22 Q. But by that time, wasn't ACET out of business? Q. Okay. Well, was there -- did you ever discuss 23 23 A. I don't -- I don't know what "that time" is, how restructuring ACET Global might impact creditors? 2.4 2.4 but I don't know. A. Maybe. It's kind of a broad question because 25 Q. Because that time was around -- wasn't it in 25 Page 163 Page 165 1 whenever you talk about restructuring, again, to me, it 1 March 2019? 2 means going to the lenders. And of course it would 2 A. 2019. So when was the foreclosure? Or maybe I 3 affect the lenders and the creditors, DHL, the landlord, 3 should tell you I don't know when the foreclosure was. 4 4 But prior to that point, if Super G's 5 5 Q. And who would you have had those discussions saying, "ACET, take what inventory you have and sell it 6 6 with? for cash, give me the cash," and then Windspeed is also 7 7 A. Well, I would start -- if I was gonna talk working, as well, separately, I wouldn't know. 8 about getting relief on the monthly or the weekly 8 Q. Okay. 9 payments, I would start with Super G so they'd quit 9 A. It's still all the stuff they had control over. 10 taking so many payments. 10 Q. Given you were overseeing ACET at that time, 11 Q. Okay. Would you have had those discussions 11 did Super G ever notify you that it had received any funds from the sale of ACET Global's inventory? 12 with anyone else? 12 13 A. Well, Baymark and Super G. Do you want, like, 13 A. Other than any payments it might have been 14 the people inside of Baymark and Super G or . . . 14 taking that it was entitled to, no. 15 Q. Yeah. Who they'd have been with. 15 I don't know how a payment that it would 16 A. Oh. I'm sure Matt and I would have talked 16 take under their note is different than something that 17 about it. Probably not David at that point. 17 would -- came from -- or how it was generated from the 18 And in Super G, the only person I ever 18 sale of inventory or whatever. I wouldn't know the 19 spoke with there, I think ever, was Bellah. Yeah, Steve 19 difference. 20 Q. Did -- did Super G ever give you any kind of 20 21 Q. Okay. And did you ever discuss salvaging 21 accounting to reconcile or account for Windspeed's sale 22 Baymark's investment in ACET Global? 22 of ACET Global's assets? 23 A. You know, that's all the conversation. And 23 A. So like a receipt? 24 it's all part and parcel with making the company survive. 24 Q. Right. 25 So, yeah. You want to make the company survive and 25 A. I guess the Bill of Sale. But I didn't -- I

Page 166 Page 168 1 1 didn't see if there was prices on there. Q. Did Baymark or ACET Global compensate Windspeed 2 2 I mean, I know if we had all our assets on for that? 3 our balance sheet, then the next day they're all gone, we 3 A. No, no. 4 just write that to zero. 4 Q. You mentioned earlier that the employees from 5 Q. If Windspeed was selling ACET Global's assets 5 ACET Global had been "pulled over" to Windspeed. 6 at the behest of Super G, did Super G give you any kind 6 What do you mean by that? 7 7 of accounting to indicate that that was actually A. I was just using casual parlance because I 8 8 think you had mentioned earlier that -- would I be 9 9 A. I never received anything like that, no. surprised to find out all the employees here ended up 10 10 Q. Did you ever get an e-mail that indicated that over there? 11 was happening? 11 But I was just going on something I thought 12 12 A. I don't think so. was understood. 13 13 Q. Did you ever receive a phone number that Q. Would -- does "pulled over," I mean, does that kind of indicate, you know, they were brought along for 14 indicated -- a phone call that indicated that was 14 15 15 happening? 16 16 A. I don't think so. MR. PERRIN: Objection; form. 17 Q. Was there any identifiable fact that you 17 A. I'm sure at some point, they all would have had 18 observed that indicated that that was actually happening? 18 to have been fired from ACET Global, and then if they 19 19 ended up at Windspeed, they'd all have to be hired there. 20 20 Q. Was that, in fact, not actually happening? The time in between, I don't know. That would -- Bill 21 21 A. I don't know. would have coordinated that. 22 22 Q. But you don't have anything to base -- to base Q. (BY MR. FREEMAN) Okay. And was that Bill's 23 23 any testimony that Windspeed was actually selling ACET job to coordinate that? Global's assets? You don't have anything to base that 24 A. I don't know what you mean by what Bill's job 2.4 25 25 is. But he wanted employees. He knew where to -- knew testimony on, do you? Page 167 Page 169 1 1 MR. PERRIN: Objection; form. where they were available. They'd all been fired. 2 2 Q. Did Bill ever send you an e-mail indicating he A. I just want to make sure you're asking a 3 3 question for the first time or a follow-up question. was going to pull those employees over to Windspeed? 4 4 Because it makes it sound like I indicated that Windspeed A. I think so. 5 was selling. Are you indicating that I thought --5 Q. Have you ever -- did you ever have any 6 Q. (BY MR. FREEMAN) Oh. And you're saying that 6 discussions with any of those employees about being 7 7 it wasn't. Okay. Then we're clear. pulled over into Windspeed? 8 8 A. Okay. A. I don't think I ever spoke directly with any 9 Q. Okay. Got it. 9 employees at ACET Global. I did get some apparent e-mail 10 Did Baymark ever provide any instructions 10 from a Pablo complaining about the business model there. 11 to Windspeed regarding ACET Global's financial records? 11 But I don't know that anybody reached out 12 12 A. Well, I kind of set that one up. So as before, to me. I went on-site one time and talked to people. 13 since I know the employees were the same, I would want to 13 But I don't think about that at all. 14 make sure that, to the best -- they could not mix our 14 Q. How was Windspeed's business model different 15 15 from ACET Global's? 16 If it's going to be the same people before, 16 A. I don't know. 17 17 I'd want to have -- at least for tax purposes, have Q. You wouldn't -- you wouldn't know anything 18 separate books. Make sure they were separated. 18 about Windspeed's business model? 19 Q. Okay. So Baymark would have -- would have 19 A. No. I wouldn't. 2.0 asked Windspeed to make sure and keep separate books or 20 Q. Or the assets that it sold? 21 records for ACET Global? 21 A. No. I mean, other than the assets it'd bought 22 A. Well, Bill -- I'm sure it'd be Bill. I guess. 22 from Super G, I don't know what it bought after that or 23 I don't know. Or we'd go through Matt. But however it 23 before that. 2.4 was effected, we'd say, "Keep our books separate from 24 Q. Would you know anything about Windspeed's 25 Windspeed books," I would suppose. 25 operations?

Page 170 Page 172 1 A. No, not directly. It's all guess. 1 know what their issues were, what they had to do or what 2 Q. Okay. Would you know anything about its 2 their deal with Bill Szeto was. It might have been the 3 dealings with customers or vendors? 3 condition for Bill to keep going. 4 4 I don't know. All I know is it wasn't on 5 Q. So is it safe to say you wouldn't really know 5 ACET Global. 6 much of anything about Windspeed Trading? 6 Q. Okay. What leads you to believe that the ACET 7 7 MR. PERRIN: Objection; form. Global note may have been -- may have gone over to 8 8 A. Yes. But based upon how you asked that 9 9 question, yes. I wouldn't know anything about how A. Well, because there was an agreement that 10 Windspeed works at all. 10 was -- I apologize if I don't get the name right, but a 11 Q. (BY MR. FREEMAN) Okay. Do you know where 11 foreclosure or a transfer. Someone transferred --12 Windspeed received its funding from? 12 where -- the note was transferred over or assumed or 13 13 A. I believe it got the initial -- a loan of whatever the magic language is. 14 \$200,000, I'm guessing, from Super G initially. After 14 Q. Okay. As part of the foreclosure sale? 15 that, I don't know. Not from me. 15 A. I don't know. I don't -- yeah. I'm sure they 16 Q. Okay. 16 would have to go together because I wouldn't want them to 17 A. Or Baymark. 17 come back and say, "Oh, the stuff that you gave us was 18 Q. Got it. How do you know that it got that loan 18 completely undervalued for the note," which it was. 19 19 I didn't want them to come back and say, 20 20 A. Because at the time -- back to earlier, when I "You owe -- you still owe me 300,000 under my note." I wanted it to be a wash between the two. 21 received the equity interest or the warrant, I know that 21 22 all that it had was that debt from Super G. So whatever 22 Q. Okay. So are you telling me that the amount of 23 23 the note that Windspeed entered into with Super G, that Q. Okay. Did you ever refer to the Windspeed loan that was based upon the amounts that ACET Global owed or 2.4 24 25 as "the ACET note"? 25 had outstanding to Super G? Page 171 Page 173 A. Windspeed's loan as "the ACET note." 1 1 A. I'll respond to the mirror image of that. I 2 Well, there was -- be careful there, 2 don't know what Windspeed assumed, but I will tell you 3 3 because you're just coming off the \$200,000 one, and that the amount of the note that was relieved from ACET 4 4 now -- I know at some point -- I don't know if we talked Global, that note was much more than the -- the assets 5 5 about it -- ACET Global got rid of its note and it went that they pulled out. And my concern was they would come 6 over there. It went over to Windspeed. 6 back and say, "Hey, you're still short. You owe us 7 7 So that one, I could say we'd get the ACET money." So I wanted to be sure there was no blowback 8 8 Global note off over to Windspeed. I don't know that from that. 9 9 that would be talking about the \$200,000 one. Q. Okay. Why would you want to make sure there 10 I think those are separate ones. I believe 10 was no blowback from that? 11 they are. I know -- I know ACET Global's was separate. 11 A. Go through all the problem of the foreclosure 12 12 Q. Okay. What do you mean by "the note went over and then having the note relieved, for them to come back 13 13 and go, "Oh, the note's not really gone. You still owe 14 14 A. As part of the foreclosure, they also took the 300,000," that's bad. 15 15 note off of ACET Global. Q. So it was Super G you were worried about? 16 16 Q. Okay. A. Well, when I'm talking about doing a deal where 17 17 A. I'm not using pretty words, but it was Super G's gonna take it, I want to make sure that the 18 "relieved" or "taken" or "assumed" or whatever. But it's 18 liabilities associated with that didn't go from one known 19 not on ACET Global anymore. 19 quantity to a much -- one larger quantity post-closing. 2.0 Q. Okay. So I can understand that. And that 20 Q. Okay. Was -- so if Windspeed took on a note 21 sounds to me like the note owed by ACET Global was 21 from Super G that ends up being equivalent to the amount 22 effectively extinguished in some manner. 22 ACET Global owed at the time, are you telling me that 23 How do we get from there to "that note went 23 that -- that note was not actually tied to the value of 24 over to Windspeed"? 24 the assets that Super G foreclosed on? 25 A. You'd have to ask Super G about that. I don't 25 A. Again, if you step back from whatever Windspeed

Page 174 Page 176 1 took on. I know the note that we relieved from ACET 1 A. Yes. 2 Global was a much higher note than the assets that they 2 Q. You decide whether or not to invest in a 3 3 potential portfolio company? 4 How that ended from there, how much went to 4 5 them, and all that stuff, I don't know on that side. But 5 Q. And as part of that process, you evaluate and 6 6 value the assets of those potential portfolio companies, I can tell you what was relieved from our side. I can 7 7 state that. right? 8 8 Q. Around the time of the foreclosure and the A. So in our industry, it's -- all the assets that 9 9 foreclosure sale, was the amount owed to Super G by ACET happen to be there are not -- are just items that's part 10 Global, was it about 514,000? 10 of an engine that generates EBITDA. And so we look at 11 A. If you'll allow me some room, yes. I think the 11 EBITDA -- and it's a multiple of EBITDA. 12 original note was 785, 750. We paid it down to maybe 12 There's some businesses -- and we don't do 13 near 400-ish. But what happens is once you go into 13 a lot of these. There's some businesses that will have default and get -- there are these penalties that show up \$30 million worth of assets and do 5 million in EBITDA, 14 14 15 15 right? And then there's some businesses that have no and accrued interest. So it had gone back up to around 16 \$500,000 at that time, so yes. Kind of a long answer 16 assets and do 5 million in EBITDA. 17 17 We tend to do asset-light businesses, and 18 Q. That makes sense. But was it about 514, 515 at 18 so we're just -- and it's no different than other guys in 19 that time? 19 the industry. It's -- all the brokers, all the private 20 A. Upon foreclosure, when they were going to do 20 equity firms follow a multiple of the EBITDA. So to make 21 21 a long answer longer, it's focused on cash flow, which it, yes. 22 Q. And that amount that was owed to Super G by 22 I'm calling EBITDA, by the way. 23 ACET, that was not correlated with the value of ACET 23 Q. Got it. So you're kind of targeting companies that may not require a high degree of capitalization 24 Global's assets, correct? 2.4 25 25 relative to the revenue they generate; is that kind of A. Correct. Page 177 Page 175 1 1 Q. Those were two just totally distinct things? right? 2 A. The assets that they took in foreclosures were 2 A. Yeah, that's kind of right. We need cash flow 3 3 vastly less valuable than the loan. companies. If it does need capitalization or cash 4 4 Q. Okay. infusion -- I think in this deal, we put in an additional 5 5 A. They did not correlate, correct. \$200,000 at close -- we need that to turn quickly. 6 6 Q. What -- what do you base your conclusion that So buying inventory, selling it, and 7 7 the assets that Super G took from ACET Global were vastly getting it back within a three-month period is okay. If 8 8 lower in value? you buy a new Caterpillar, you know, a hard equipment 9 A. Based upon the items that -- I mean, if you 9 thing that is going to be around for 30 years, that's not 10 could look at that list that was sent over, that list. 10 good. We don't do business with those. 11 Well, let's do it this way: At the time of 11 Q. When you're evaluating a company, though, 12 12 you -- your financial model for valuation tends to be a the deal -- we can assume that near the time of the deal function of EBITDA? 13 when Tomer was still there versus until later, the value 13 14 14 only went down. A. Yes. Almost solely. 15 I can peg it when Tomer was still there. 15 Q. And you apply a multiple, generally, to that? 16 It's an e-mail when Tomer says the value of the inventory 16 A. We do. 17 17 is worth 300,000 and the net assets of the company are Q. It kind of depends upon the industry and 18 \$350,000 after the payables but before debt. So call 18 perhaps economic conditions generally? 19 that 350 back when Tomer was there. If we assume 19 A. Um-hum. Some time that we can grow it. 2.0 bleed-off, it would only be less thereafter. So I don't 20 Q. And when you're evaluating that, then, if it's 21 know how much below, but it was -- they weren't the same. 21 based on EBITDA, you're really not making that decision 22 Q. Okay. And are you -- let me step back for a 22 based on a balance sheet; is that right? 23 23 second and ask you. A. That's true.

Q. You're effectively performing a valuation that

is a function of a profit and loss statement, right?

- Q. And when you're evaluating the value of a company, then, you're not basing the value or your decision about what you would be willing to pay for it upon a balance sheet?
- A. Okay. Well, you broadened it into some subtle areas, but when you say "based on the balance sheet," the debt also goes on the balance sheet, not just the assets.
- 14
 - A. And we're -- we're mindful of the debt as well.
- 16 Q. Okay.
- 17 A. But, yes, we do mind the balance sheet, but not 18 for assets.
- 19 Q. So you want to know -- you're gonna place a 20 value that's a function of -- a function of cash flow or 21 P&L; and then you're also gonna factor in, you know, how 22 burdened, I guess, with debt is that cash flow going to 23 be? That's the basic --
- A. Yeah, potentially. It's just, I guess, in the 2.4 25 industry, and then if it grows -- usually if a

Page 180

- Q. Right. Well, I mean, as someone acquiring businesses, are you looking at it -- you're looking at more broadly than just the individual line item assets, physical assets, right?
 - A. Yes.
- 6 Q. More goes into the value than just those items?
 - A. If by that you mean we look at EBITDA and all the things that make it up, yes.
 - Q. Right. And aren't those -- in a sense, aren't those proxies for other things that give a business value, like existing contractual relationships, a track record, workforce in place, other intangible assets, brand recognition?

Aren't all of those things part of what helps generate an EBITDA?

A. No. You kind of mixed metaphors there. You started with aren't those equivalent to EBITDA, and then you said, "Aren't some of those generating EBITDA?"

They can or can't. They're not -- they're very difficult to measure, and they're inaccurate.

Again, when you value a company for the cash flow, especially when you go to other people that say, "Hey" -- when you have lenders or even, say, for example, in our case, a seller that takes a note, they obviously know it's going to be the cash flow that's

Page 179

- business -- say if you get a million-dollar EBITDA
- 2 business that has multiple -- if you get it over
 - 5 million in EBITDA, you can get a multiple expansion, things like that.
 - Q. And what's the -- why do you apply a multiple of EBITDA? Is it because a business is more multifaceted than just the -- just its particular physical assets?
 - A. I wish I could say it's more esoteric, but that's how the industry works. So I work with all the people I show up with.

But I also understand that if we look at a business and we're gonna pay them two years, three years of their profits or their cash flow into the future, and then also ask them to hang on to some of it, and we can grow the business, as well, usually, if we hold the business five years, there's two years on the end after the growth that we've paid off the initial price, that last two years on the end, if it's grown all five years, is where we make our profit at the end.

- Q. This valuation -- you know, this valuation model that, you know, just everybody uses is -- I mean, that's basically a convention that has come out of a market process, right?
- A. No. It's the one that I deal in every day. I can't speak to the whole market.

Page 181

- 1 going to pay them back, not these esoteric things that 2 you're talking about.
 - Q. Okay.
 - A. And lenders alike.
- 5 Q. Okay. So, you know, with all -- with all those 6 items, though, something else -- besides just the line 7 items that would flow into a balance sheet, right, 8 something else is creating value that gives rise to that 9 EBITDA.
 - A. I don't know if I follow you. I don't disagree, but I don't follow.
 - Q. Okay. I'm just trying to understand. If you're willing to pay more for a company than just the assets that exist there, something must be creating value beyond just those assets.

A. The EBITDA. For example, there's been businesses that are -- say an architecture firm. They may have a bunch of guys there, and architecture firms, that get contracts, but I don't know if they have assets. I assume they don't. They have a bunch of CAD machines and stuff. But, you know, they can make 10, \$20 million a year in the deals that they can do, but there's no assets there.

- 23
- 24 Q. Okay.
 - A. But they have value. We don't buy those in

Page 182 Page 184 1 particular, but some people do. 1 And I'm asking: How's that any different from when you 2 Q. Right. And so that's an intangible value, 2 acquired it? 3 right? 3 A. I don't think I'd link those together. Just, 4 A. What is? 4 again, if we can focus on the cash flow, when we bought 5 5 Q. That sounds like there's an intangible value it in July -- I don't have the financials in front of me. 6 6 July's performance was actually 1.1 in EBITDA. By there that is giving rise to that. 7 7 A. Just cash flow. It's the ability to provide a December it was like \$150,000. I think I'm right. 8 8 service at the moment and convert that into cash. So we went from being able to -- having a 9 9 Q. Let me ask this a different way. If -- when million dollars' worth of excess cash floating in per 10 10 Baymark acquired or engaged in the Asset Purchase year to having \$150,000 of excess cash floating in by the 11 Agreement with what is now D&T Partners, was there 11 end of that year. And that creates problems with buying 12 12 inventory and making payments to Super G, who had a note \$3 million of physical assets that it was acquiring? 13 13 that's not serviceable for \$150,000 worth of EBITDA, Q. Was there a million dollars of physical assets where it completely is at 1.1 -- or 1.2, especially. 14 14 15 15 it was acquiring? 16 A. (Shook head.) 16 (Technical adjustment.) 17 Q. Was there even \$500,000 of physical assets? 17 THE WITNESS: It might be the glare off my 18 18 A. Maybe. I mean, inventory was about 300,000. I forehead. 19 give you the benefit of the doubt on some desks and 19 THE COURT REPORTER: Sorry for the 20 chairs. Let's say that or below. 20 interruption. 21 Q. (BY MR. FREEMAN) By the way, I got to tell Q. Say something between 300 and 500, roughly, of 21 22 assets? 22 you, I was taking a deposition in another case last 23 23 week -- I thought you were gonna make fun of your A. Sure. Q. So what is it -- and that's at the time when 24 24 forehead 25 A. I did. 2.5 Baymark acquires the entity? Page 183 Page 185 1 1 Q. The lawyer got into it a bit with me, and the A. Yeah. 2 Q. And you came to the conclusion then that it was 2 parting shot was, "Nice bald spot." 3 worth almost \$4 million? 3 A. Oh, wow. Let's not get to that level. 4 4 A. Yeah. So it was -- so the cash flow books on Q. Yours looks pretty good. 5 5 the assets, so it's not relevant. It's the amount of MR. PERRIN: Jason, I haven't gone there. 6 cash flow or EBITDA that it throws off at the end. 6 MR. FREEMAN: Excuse me? 7 I think the year that we came in, it was --7 MR. PERRIN: I haven't gone there. 8 8 you know, we do -- we try and look at the financial MR. FREEMAN: No, you haven't. MR. PERRIN: And you can talk about my 9 statements and see if it's gonna generate 1.2 million, I 9 10 think we thought at the time. If it generates 10 silver look here, too, so . . . 11 \$1.2 million every year thereafter, that's the value. 11 MR. FREEMAN: Yours looks pretty good. I 12 hope I get to that. I'm trying to hold on to what I've And so we put a multiple on that, and that's what we buy. 12 13 That's really just it. And, I mean --13 got. 14 MR. PERRIN: Yeah, thanks. 14 Q. That's it? 15 15 Q. (BY MR. FREEMAN) Well, circling back, so . . . A. -- it seems like you could expand it and put 16 some other things. You're going a little above my pay 16 Did you ever refer to the Windspeed loan as "the ACET note"? 17 17 grade, but --18 Q. No. You're clearly -- you're in the pay grade 18 A. I don't believe so. 19 for sure. There are -- you may be above mine. But I'm 19 Q. And do you know when Windspeed -- if it did, do you know when Windspeed began selling ACET's inventory? 2.0 trying to -- what I'm trying to reconcile from that now 20 21 is -- and this was the long way around, I guess. 21 A. No, I don't. 22 But you're telling me that ACET Global, in 22 Say that again. When Windspeed started 23 your mind, is in the red in terms of its value because 23 selling ACET's inventory? 24 Tomer Damti e-mailed you telling you there was 24 Q. If it did, but . . . 25 300-and-something thousand dollars' worth of inventory. 25 A. No.

- 7 A. Did Windspeed pay any of its own debts? I 8 don't know. I'm just making sure if you're asking if we 9 did. I know we didn't.

- A. Or -- ACET Global. I said "we." ACET Global or Baymark.
- Q. Who prepared ACET Global's taxes for '18 and '19? Was that Howard?
- A. Howard and Co., yes.
- 16 Q. Did Bill Szeto have any role in that?
- 17 A. I don't know how granular you want to get.
- 18 Maybe if he had access to the books and records, he would 19 send a trial balance over -- or -- but, again, he had
- 20 access to the information. But that would be it, would 21 be my guess.
- 22 Q. Not, like -- to your knowledge, not, like, a
- 23 back-and-forth with the accountants?
- A. I wouldn't think so. And I don't know that 2.4 25 Bill has that level of knowledge of tax stuff anyway. I
 - Page 187

Page 189

- don't want to disparage the guy. He's not here. I don't actually know. He could be a tax -- he could be a tax genius.
- Q. Was there a -- when F- -- well let me ask it this way.
- In March of 2019 and thereafter, was there any reason for ACET Global to be kept open rather than shut down?
- A. Yeah, that's always a tough call. A lot of times, generally we could leave a business open because you never know if some -- when there's an employee that left angry, like Pablo. He could come back and say there was something. And if we don't have an entity in place, we don't have a place to put that complaint into that entity with the normal corporate protections.
- So you had protection in one regard by leaving that open, if there's a sexual harassment or something like that.
- On the flip side, though, if you're getting calls from vendors, sometimes we'll push to go ahead and close it if it's established. Almost never happens anyway. So it's a weighting between those two issues.
- Q. Okay.
- 24 A. Did I answer your question? I don't feel like 25 I did.

Q. I -- nope. I mean, it makes some sense. And it was probably a bad question.

Page 188

Let me ask you, with the foreclosure sale, can you walk me through what you understand or know of Super G Capital's foreclosure of ACET Global's assets, kind of what happened?

A. I'll do my best. I believe at some point early on, they came to us and said that they wanted to begin the process of reclaiming the assets.

And I think early on at some point, they wanted to do what's called an ABC or an assignment for the benefit of creditors. I'd never heard of that or -certainly hadn't been involved in one. But to me, I call that a friendly foreclosure, where there's some voluntary nature to that. So we -- that's when they indicated that they were getting serious about taking the assets.

We said no. Honestly, I didn't -- I didn't think they had the guts to do a foreclosure. I thought that would buy us time because banks do not like to take assets back because they have to acknowledge that their loan's failed.

So by putting the pressure on acknowledging that the loan failed, I didn't think they'd make that call and that would give us some more time.

Q. Okay.

A. Time went on, and at some point it became clear 2 that they were gonna do a foreclosure. And when they 3 said, "We're gonna do a foreclosure." I was like, "Well, 4 let's get out the docs." And so we, "Let's look at the 5 processes of foreclosure." And at some point, under the 6 Security Agreement, we have to comply or can't resist. 7 And we went along with that process, and Julie helped 8 make sure we didn't go too far or too little with -- in the foreclosure. 9

> And I don't know if I'm getting the dates -- helping you with the dates. But they executed the foreclosure, I think they did a notice or some deal at the time and made sure all the parties got notified, and then took the stuff.

- Q. Okay. Did -- so that was really the only reason for Baymark Partners' involvement in the foreclosure?
- A. When you say "only," I mean, there's a lot of risk for those original legal documents if -- if we don't make them stick to the rights that we agreed to originally, in the original documents, and then they come back around and stick us with extra.

Or what if we did an inventory to them and they come back and say, "The inventory isn't complete. You kept some stuff," you know. We did something with

		T

Well, sure. I mean, we did Windspeed Trading revised and reissued operating 13 13 have some rights, and -- very few of them. I don't know 14 A. It could have been. I don't know. 14 about "require," but we were able to exert what few 15 15 Q. And didn't you see that -- didn't you review rights we had. 16 16 Q. What leverage here did Baymark Partners or ACET 17 A. The Windspeed Trading Operating Agreement? 17 Global have against Super G to ensure that, you know, it 18 18 was completely relieved of liabilities? Q. Yes, sir. 19 19 A. I would have, yes. A. Well, I think there's just a common 20 Q. Now, there were also some other e-mails here. 20 understanding that if we're gonna have this, I guess, 21 this divorce or this breakup, that we all do it amicably (Deposition Exhibit 22 marked for 21 22 identification.) 22 and dot your Ts and cross your I's. 23 23 Because there's always the chance that if Q. So everybody wants to make sure the 5 5 exchange between Matt Denegre of Baymark Partners and deal was complete and moves on, nobody gets surprised 6 Alex Godinez of Super G Capital? 6 later when they stick us with more cost, or we sue them 7 7 A. It is. because they took our stuff and wrecked our business. 8 8 Q. Okay. And it's January 29th, 2019? Q. Well, aren't y'all, in fact, business partners 9 9 A. Um-hum. in Windspeed at this time? 10 Q. And Subject line: "Windspeed/ACET"? 10 A. No. I don't know who "y'all" is, but I'll say 11 11 12 Q. And what's the relationship there? What do you 12 Q. Is there a Baymark-affiliated entity that 13 understand the relationship between Windspeed and ACET to 13 was -- that had an economic interest in Windspeed? 14 14 be? A. Yeah. If you're talking about Baymark Partners 15 15 A. Well -- at this time, as I mentioned, I knew Management, that was -- that had the -- that did have a 16 16 that the ACET note was going to be transferred over to -equity piece. I think I heard you say 40. I said 30, 17 17 or assigned or whatever over to Windspeed. In addition but you said 40. I'm not sure. 18 to that, they were gonna foreclose on our assets as well. 18 But it had that equity piece in Windspeed. 19 I guess, finally, they decided to do that. 19 And so Windspeed already had \$200,000 in debt, and it was 20 20 Q. And would you be surprised to learn that 24 draft all the foreclosure sale documents? 24 the testimony of Bill Szeto was that all of the inventory

A. No. I think on the foreclosure sale -- so on

Page 198 Page 200 1 purportedly happened in March of 2019? 1 asked me to write an agreement against myself, I'd be 2 MR. PERRIN: Objection; form. 2 glad to do that. They might miss something. So I 3 A. Yeah, I wouldn't be surprised to hear him say 3 don't -- I don't know who did what. 4 that. What does it mean when he says "gone, all gone"? 4 Q. Well, I mean, is it a -- is it a habit of 5 Was it depleted from \$300,000 down to 100,000 or -- I 5 Baymark Partners to try to put things into agreements 6 don't know what he means by "gone." But -- I didn't 6 that counterparties won't catch? 7 7 watch Bill Szeto's testimony, but I wouldn't be surprised A. If it's within the realm of business 8 8 by a lot of what he says, no. negotiations, in the world of redlines, it doesn't 9 Q. (BY MR. FREEMAN) Surprised to hear him say 9 actually happen. But usually on most documents, people 10 10 that there was none of it left? focus on -- on the things that they're concerned about 11 MR. They're represented by counsel who 13 don't know, but there had to be something there. 13 do it for a living. Q. So I'm scrolling down on this Exhibit 22 to the 14 Q. (BY MR. FREEMAN) And so why is this Subject 14 15 line "Windspeed/ACET," Exhibit 22? 15 e-mail from Mr. Godinez at Super G Capital on 16 A. Well, I have to look and see, but, again, if 16 January 29th, 2019, and it was to Matt Denegre and 17 we're -- there's a note coming from one, going to the 17 provides the Subject line "Windspeed/ACET." 18 other. Then there's going to be the asset foreclosure 18 And do you see that? 19 that's coming out of one. So it could be multi-topic --19 A. I do. Q. And above that, I don't believe when 20 topics to finalize debt. 20 21 Q. But it's your testimony on behalf of each of 21 Mr. Denegre responded, that he indicated any lack of 22 the entities that you represent that Super G was not 22 clarity about what was being referred to; is that right? 23 asking Baymark Partners or ACET Global or any of your 23 A. Just one second, I'll read it real quick. So entities to draft forfeiture agreements? this is on January 29th. (Reading.) Yeah. That seems 2.4 2.4 25 MR. PERRIN: Objection; form. 25 to be what it says. It's not confusing to me. Page 199 Page 201 1 1 A. The word "draft" seems to be, like, something Q. Seems -- no. So Mr. Godinez says, "Hi Matt, 2 somebody does alone in the dark and no one else is 2 Just wanted to follow up on status for the final version 3 3 involved. There's attorneys everywhere on this deal. of the foreclosure agreement. Are we good to finalize?" 4 4 I think Bill had his own attorney -- I know And is that consistent with your 5 he did. Super G had an attorney. We had an attorney. 5 understanding of Baymark Partners' role in the 6 So once the parties discuss a common interest, the 6 foreclosure agreements? 7 7 attorneys go and make it happen. Did they ask you to redline it? 10 everybody doesn't mean he's doing the drafting. 10 A. I don't know. I'm sure if review found a 11 So -- I'm burning a little bit that I think 11 misspelling, we would have let him know. 12 12 everybody was involved in this process, and certainly us Q. Any substantive changes? 13 less so because we had fewer rights, but that doesn't 13 A. I doubt it. 14 mean we didn't get a seat at the table. 14 Q. Did -- who owns Windspeed? 15 Q. (BY MR. I think Super G had 16 ACET's counsel wouldn't -- you know, given that, wouldn't 16 it, and I would assume Bill Szeto does. I don't know 17 be taking up the laboring oar of drafting the foreclosure 17 18 agreements, would it? 18 where it stands. 19 A. "Laboring oar," I guess you mean the majority 19 Q. Okay. But you think Super G had ownership in of or the burden's work? It doesn't matter. Everybody 2.0 20 Windspeed? 21 gets their say. I don't know if we wrote some of it or 21 A. I believe so. When I say "ownership," I'm 22 we commented on it. 22 being casual, blending of warrant and ownership, save the 23 You know, if you're writing an agreement 23 difference. 2.4 that's against you, you can do a lot of favorable things 24 Q. Page 206 Page 208 1 A. Um-hum. 1 January, so we got that long. But I don't know . . . 2 Q. Do you know what he's referring to? 2 What was your question? Did I answer it? 3 A. Let's do some guessing here. 3 Do you want me to take another stab? I don't think I 4 January 17th, I don't think they'd sorted 4 5 out yet, at this time, if they were gonna do a -- just 5 Q. No. I'm trying to figure out why, you know --6 get rid of our note, and then Windspeed have a new one or 6 first of all, why ACET Global's -- or Baymark's attorney 7 7 just take our note. is engaging in this transaction with Super G's attorney 8 8 And so Vanderwoude represents Super G, when ACET and Baymark are supposedly not a party to this 9 9 right? And so if he's representing Super G, he's transaction. 10 10 probably talked with them and realized that, "I don't A. ACET's a party. ACET is losing a note and it's 11 think that they can do a new note," that they have to go 11 having its assets taken from it. Dangerously so. 12 through legal or stuff. 12 Because if they take out assets incorrectly, we're gonna 13 get blowback. So we're definitely a party to it. It has 13 So to get this note over, they're just 14 gonna have to pull it over, which would be easier for 14 to happen correctly. 15 15 them and less trouble for them. Q. And then what I'm wondering, though, is how is 16 I don't know their politics, but I got a 16 it that the parties have already orchestrated some kind 17 sense that they weren't able to do a new note. They had 17 of loan or note that Windspeed would owe if Windspeed 18 to transfer ours. 18 hasn't even -- there hasn't been a foreclosure, there 19 19 Q. Okay. hasn't been a foreclosure sale, assets hadn't --20 20 A. That's what he's saying here, but I don't know. Windspeed hasn't purported to legally acquire any of the 21 2.1 I don't know if he got . . . assets at issue? 22 Q. Well, how's -- how is all of that related? I 22 A. So I guess -- guessing for Windspeed a little 23 23 mean how is -- how is all that related, I guess? bit here. But the first one you said, "if there wasn't a note yet." I think Windspeed already had a note. You 2.4 A. Well, obviously they're working out the 24 25 methodology of how they're gonna get that loan off of 25 mentioned the \$200,000 note already, but I think you're Page 209 Page 207 1 1 ACET, and I guess Brian, right here, is espousing his talking about a different one, this note here, the one 2 2 pain or what's easier for him under what -- under their that was going to be assumed. So that -- again, how it 3 political system to get that done, which, again, I don't 3 gets over that is either -- you could kill the ACET 4 care how they do it, as long as they take it. 4 Global note and create a new one over there, and that 5 5 Q. Well, is this all related to the foreclosure? would be their problem. As long as they killed ours, 6 6 that's all I cared about. A. Well, it happened at the same time. So when 7 7 the assets went over, so we didn't get blowback -- and And if they came back around and said, "No, 8 8 they also took the note, kind of together, we didn't want we can't, it's gonna take us too long to write a new one 9 9 to have any blowback. over there" -- which, again, I don't care about -- "But I 10 So, yeah, that -- whenever our -- again, 10 need to take this one and move it over there." 11 for ACET Global, whenever our note disappeared. It went 11 "Great. Make sure you do that." 12 12 away, it got transferred, and the assets went away. That So I don't know why they didn't get their 13 13 is definitely related. act together. If all of this is the case, why not -- why not 16 A. I don't think so. I think -- sorry for dates, 16 just agree to transfer all of the assets subject to the 17 17 but I think you mentioned it happened in March of '19 is notes over to Windspeed? 18 when it happened, so this was before. 18 A. I don't know. That would be to counsel. That 19 Q. Okay. So why is all of that being worked out 19 sounds like an attorney option there. There's a lot

of -- you had the senior lender and their docs. You had

all that stuff. So there's -- there's a path that you

before Windspeed had even purported to legally acquire

A. I'm back to the fact that I think we stymied

them a little bit when we didn't do the ABC, so now

they're flailing on how they're going to get those assets

over. We slowed them down, obviously, from October to

2.4

Page 210

everybody saw those, and from what I understood, we were going through those processes that were put in place then.

Q. And isn't the only -- the only loser in this scenario, isn't it just the junior creditors?

2.0

2.4

A. Well, depending on how you define "losers," I would say myself, who gets no return on any equity, so that's lost. The -- all the debt holders lost.

I think everybody lost on this deal. I don't think there's lone-man losers here. There's no value in the company, and it's gone.

Q. Right. It's all in Windspeed now, isn't it?

A. I don't know it's in Windspeed, but I would be surprised if it's even functioning or existing. I could check, but I would be surprised if it's even a company. I don't know.

Q. But – so was that option never even discussed, just simply transferring all of the ACET assets over into a new entity that would assume the note encumbering those assets?

A. All that was discussed from our side was to
resist Super G and not go along with their ABC because we
didn't think they would foreclose. And it put them off
long enough — the hope was that we could have a little
more time to run the company.

Page 212

go ahead and move forward with the foreclosure in 2018, right?

A. We did throw that out there. If they were gonna do that, that was their only recourse at that time, because I don't know if we were even paying them at that point. But, again, we were trying to keep cash flow in the business, and they weren't -- they weren't getting the loan back.

Q. And if I understand this correctly, the assets end up — after the foreclosure sale, they end up — all of them end up with Windspeed, correct?

A. I don't know. I would assume that all of them that were foreclosed upon went directly into Windspeed. I don't know if they went to Super G first and held and then they bought them separately or if it was a two-part transaction.

If that was the case, there might have been a case where Super G sold some of them to somebody else. They had a portfolio of companies. I don't know how many of them ended up in Windspeed. I don't know Super G's portfolio. But let's just assume the majority of them went over there. I don't know.

Q. Okay. And your understanding is that Windspeed, as a result of that foreclosure agreement, ends up taking on a note to Super G that is the same

Page 211

But ultimately, I guess Bill set up
Windspeed, and Super G said we can take these assets and
run them, whatever's left. I don't know how much of
those assets we got -- they got over there -- we gave
them. So I don't -- I don't know -- about the only
way -There's a lot of ways you could do it

There's a lot of ways you could do it.

But, again, when we first did the initial deal docs, there was these things that the parties agreed to, and I think this drove us through to that.

Q. Okay. But doesn't that seem like a much, much simpler structure, to simply transfer all of ACET Global's assets to a new entity and have the new entity assume the encumbering debt?

A. I don't know about "easier." Again, they had their political issues. I think Super G's a fund. So how they book things and how things look or what they intended to do with it, I don't know.

Q. But you're not suggesting that anybody here was trying to -- you know, trying to hide the ball from any regulators or anything, right?

A. Anybody was trying to hide the ball from any regulators? I think the senior lender had a secured interest and they -- they exercised it against ACET.

Q. Okay. But Baymark Partners was asking them to

Page 213

value as the one that ACET Global had owed to Super G?

A. I think the way it's written is it was an

assumption, so it was actually the same note that went over there.

Q. Okay. So at the end of the day --

A. I think that's what this says. Instead of doing a new one, they just assumed. Is that what it's saying? Yeah.

Q. Right. And so at the end of the day, then,
 Windspeed has all of ACET's assets, and they're
 encumbered by a note of the exact same value?

A. Plus an additional note for 200,000 that was done before.

Q. Right. All that owed to Super G?

A. I believe so.

16 Q. Right. So --

A. I don't know if they got other financing or not.

Q. Right. So we all know what I mean when I say
"Who's the loser in this?" Who's the loser besides the
junior creditors?

MR. PERRIN: Objection; form.

A. Everyone's a loser.

Q. (BY MR. FREEMAN) The junior creditor's liens don't appear to follow into Windspeed, correct?

54 (Pages 210 to 213)

Page 214 Page 216 1 A. No, they do not appear to follow into 1 A. So are you saying did we allow Windspeed to 2 Windspeed. 2 assume the ACET note? You're making it sound like we 3 Q. But Windspeed takes on all of ACET's assets for 3 would ever resist that. Like we -- no, we want to keep 4 a note of exactly the same amount and also appears to 4 the note. It's kind of ass-backwards, isn't it? If 5 5 have the wherewithal to pay on an even greater note? somebody wants to take a half-a-million-dollars note off 6 6 A. I don't know if they're making payments -of me, they don't have to ask twice. Like, if you ask me 7 7 right now, I'll give you half-a-million-dollar note. So there's an assumption that they're making payments or 8 8 not. I don't know. I'm not sure if that's what you meant. 9 9 Q. And they have the benefit of Super G, who Q. Well, the whole thing seems ass-backwards to 10 me, too. But I'm -- I'm wondering, is there any point in 10 provided the capital at issue, having a 40 percent 11 economic stake? 11 time where Baymark told its attorney that Baymark would 12 12 agree to allow Windspeed to assume the ACET loan? A. They do. 13 MR. PERRIN: Objection; form. 13 Q. One could view Super G's economic stake as 14 equity, right? 14 A. No, Baymark never told our attorneys that we 15 15 would allow Windspeed to assume the note. We were glad, A. I don't know if there was an equivalence 16 between those two. Giving debt, because it has to be 16 and we would push it. 17 repaid, which it does. 17 Q. (BY MR. FREEMAN) Are --18 18 A. If they wanted to take it with the foreclosure, Q. Sometimes it's hard to tell where the line 19 19 between debt and equity is, right? that's beneficial to ACET Global. 20 20 A. I don't know if that's a legal question or just Q. Okay. Would there be any reason that Baymark's 21 or ACET's attorneys might have thought that Baymark 21 a functional question, but maybe. 22 Q. Right. So, I mean, we possibly have -- if we 22 wouldn't want to have Windspeed assume the loan? want to view this as -- you know, Super G's capital as 23 23 A. I don't think so. Other than if it wasn't done equity here, we possibly have now moved all of ACET 24 24 correctly. Like, if the loan was assumed as part of an Global's assets over to Windspeed, free and clear of any 25 ABC with the foreclosures taken in a way that wasn't 2.5 Page 215 Page 217 1 1 encumbrance, as long as no one picks up on it, right? allowed under the original documents, that wouldn't have 2 MR. PERRIN: Objection; form. 2 been pre-negotiated, so probably would tell them not 3 3 A. Again, this purports to be in compliance with then. 4 4 the original documents that were signed by the credit Q. Okay. And did -- dropping down here to the 5 holders, senior and secondary, and also the Asset 5 second page of this Exhibit 44, there's an e-mail from 6 Purchase Agreement. So whatever the effective -- at the 6 Julie Smith to Brian Vanderwoude on January 3rd, 2019. 7 7 end, it was following that agreement. A. Um-hum. 8 8 Q. (BY MR. FREEMAN) How did you believe this to Q. And does she say, "I spoke with Baymark after 9 be consistent with the agreements that D&T Partners had 9 our call on Monday." And she says, "Baymark has agreed 10 10 to allow Windspeed to assume the ACET loan"; is that 11 A. Well, I'm speaking for all parties because the 11 right? 12 12 agreements that we signed were -- I think they were all A. Yes. signed by the senior lender, the seller note, and also Q. And what do you understand her to mean there? 13 13 14 the Baymark Partners' parties. And that is, we granted 14 A. It means that we're not gonna resist if they 15 security interests -- primary security interests in all 15 want to take that debt off of -- off of ACET. I'm sure 16 the assets, you know, blanket assets, to the senior 16 it's part and parcel, along with how the foreclosure's 17 17 gonna go as well, because I think those happened at the lender. 18 And then there was also security interests 18 same time. They had to have. 19 for the secondary person, but they were behind the 19 (Deposition Exhibit 24 marked for 2.0 senior, and that's what it means to be second in line. 20 identification.) 21 And if the senior exercises those assets against, I 21 Q. (BY MR. FREEMAN) Okay. So I'm pulling up 22 guess, the secondary and also the equities holders, I 22 what's marked as Exhibit 24. (Shared screen.) 23 guess that's their right. 23 Do you see that?

So is that the cash requirements we were asking 17 17 for there? Hang on. 18 A. I think we've talked many times throughout 18 Q. Right. Was part of those cash requirements --19 this. Your term of "restructuring ACET Global" usually 19 now, is that to pay some accrued expenses of ACET Global? 20 20 involves getting relief on debt payments and doing A. It's salary accrued. I don't know if that's 21 things, so yeah. We even talked about times when they 21 Bill's or other people's. We were paying the employees 22 cut their payments back a few times, so yes. 22 current because we were funding it still at the time. 23 Q. How much did Windspeed originally put 12 13 into -- how much did Super G originally put into 13 A. Yep. 14 14 Q. Is that correct? Windspeed? 15 15 A. That is correct. A. 200,000, wasn't it? I don't think it was 250. 16 Q. Okay. What did you understand Baymark Partners 16 Q. Okay. And this, actually the total capital 17 to mean by "restructured entity"? Because I'm using your 17 requirement here is \$200,500; is that right? 18 18 A. Yeah, some of which goes to old stuff, which is 19 A. So if this is at September, this is probably 19 not good if it's a blind product. our final plea to saying, "If you want this thing to go 2.0 20 Q. Right. I don't 23 stuff. That's a waste. 2.4 think they went for that. I know they didn't. 24 Q. Right. And so this is the ACET Plan, right? 25 Q. Okay. So they wouldn't agree to it? 25 A. Page 230 Page 232 1 A. There is. 1 I didn't see it. I probably did. 2 Q. And is this -- does this look like the Warrant 2 Q. Okay. I mean, did anybody ever say something 3 Purchase Agreement that Baymark entered into to obtain 3 in an e-mail that, you know, "I want a provision that 4 warrant rights in Windspeed? 4 requires Baymark to put money into Windspeed"? 5 A. It looks -- and I can tell because there's, 5 A. No. 6 6 Q. Did anyone say that on a conference call? like, brackets. So it looks like a form, so it's 7 7 probably in the same line, but I bet it looked a lot like A. No conference call. 8 8 Q. Text message? 9 Q. Okay. 9 A. No. 10 A. But at some point -- which means it changed, or 10 O. I mean, was there ever even a discussion about 11 information got put in, or dates were put in there. 11 it? 12 Q. Okay. And were those -- was the exercise price 12 A. No, no more -- no. Similar, when Bill Szeto 13 used to call us, you know, ACET Global, and say, "I can't for those warrants, was it a hundred dollars? 13 make payroll." He would tell Matt first. Matt would 14 14 Q. If it hadn't changed from this form, then yes. 17 put in any more money. 18 Q. Okay. And that is what you had obtained -- or 18 So the money that Baymark put in, like, 19 the company had obtained? 19 those last few tranches, was solely from me. I didn't 20 A. But Matt's bleeding 22 \$200,000 in debt. And then 40 percent of 8- -- \$700,000 22 heart and, you know, Bill's. So he probably thought he 23 in debt, yes. 23 could continue to play on my bleeding heart to put in Q. Okay. So there was really no -- why -- if money at some point, which, again, I never have. 2.4 2.4 25 that's what you're acquiring, why go to all this trouble, 25 Q. Okay. If you and Baymark had such a bleeding Page 231 Page 233 1 heart, why were you taking 40 percent of this company? 1 all this legal expense to draft all of these documents? 2 2 A. Well, it's -- again, Bill Szeto was brought A. Again, if it was going to be given to us -- and 3 3 quite honestly I don't know how much expense it was, but into the company and then struggled. And he put it 4 4 just to protect our interest -- and we weren't getting together. If he wants to hand it to us because he thinks 5 stuck with a warrant or equity, I'm not going to try to 5 at some point we can help him with money, which we 6 6 haven't -- haven't done -- I don't know how long it's draw a distinction between the two. 7 7 Just to make sure we were protected and we been, a year and a half or more. I haven't done that. 8 8 didn't have any -- I know Bill was wanting us to put More than that. And if he thinks that we can provide him 9 money in. He might have wanted me to put money in since 9 expertise. 10 I'd been shown to have a soft heart for him funding --10 But Bill Szeto sounds good, but he doesn't 11 keeping companies alive. So I just wanted to make sure. 11 take expertise -- he doesn't take advice very well. And 12 12 Because often in these agreements, it would be a I'm sure he didn't think Matt helped him a lot or I 13 13 requirement for the partners to put money in. I just helped him a lot either. So . . . 14 14 wanted to make sure that wasn't there. I haven't talked -- just so you know, I 15 15 Q. If Bill was such a sophisticated businessman, haven't talked to Bill Szeto, not a single time, since 16 why did he not insist upon some provision like that? 16 September or earlier, not once. 17 A. I guess he was smart. I don't know. 17 Q. Did you -- I mean, did you feel like you were 18 Q. Did he ever even ask for that? 18 taking advantage of Bill Szeto with this agreement? 19 A. No. 19 A. No. Q. No? 2.0 Q. Did you ever see his attorney request that? 2.0 21 A. No, I don't -- honestly, I didn't see any 2.1 A. No. 22 drafts going back and forth. 22 Q. Was there much negotiation about these figures? 23 Q. Well, did you see this draft? 23 A. I don't know if there was a couple versions 24 A. I did. Yeah, that's regarding Matt's discussion with 3 pricing when you buy it, or improper -- it's easy to 4 4 increase your revenue if you drop your price. If you 5 Q. And during all this time, are you saying 5 drop your price, you sell a ton of product, but you got 6 because you had been delegated some authority, you were 6 no margin. So cash flow, EBITDA, is the only thing that 7 kind of overseeing the company? 7 matters. 8 8 A. I am saying that, yes. Q. Was there a big, across-the-board drop in price 9 9 in January of 2018? Q. I mean, are you the leader of the company? 10 10 A. I'm authorized to take this action, if that's A. I don't know. I wasn't involved. Just to dial 11 what you're asking. I don't know if you asked David, but 11 down to it, Tomer was the CEO of the company at that 12 I'm sure he would agree. 12 time. Those were decisions made by him. He understood 13 the industry at that time. So who was ever the leader --Q. I mean, I'm trying to figure out specifically 13 what the authority is. I mean, were you like -- are you 14 14 the operational leader at the time, they take the hit for 15 15 the leader of the company? Or are you just doing -- I the performance of the company. 16 mean, just another employee outside the company? 16 Q. And you indicated that the prior January, the 17 A. I'm acting as the designee of the board of 17 company had lost 94,000? 18 directors, number one, directly, since I'm on the board. 18 A. I believe that was the -- yes, the EBITDA loss 19 Number two, David, as president, delegated 19 20 Q. And this January 2018, how much did you say it these types of tasks to me as well. So I guess both 20 21 21 lost? wavs. 22 Q. Okay. And was this termination -- what was the 22 A. 82, I think. 23 reason for the termination? 23 Q. 82. Was -- just, I don't know, five or six months before this, you had valued the company at about 24 A. The poor performance of the company from the 2.4 25 time of closing to February. The EBITDA had dropped from 25 4 million bucks? Page 247 Page 249 1 1 million to zero. 1 A. Prior to that, we valued -- the company had 2 2 Q. Okay. And I suspect that this is in February 1 point -- when we did the deal, I think I referred to 3 of 2018, but I suspect that January of 2018 was a bad 3 this, we did it thinking it had 1.2 million in EBITDA. I 4 month. Is that what prompted this? 4 think that was off of June's numbers because we were 5 5 A. Well, the performance all along, it's closing in January, and you don't get those until later. 6 directional. Going from a million in EBITDA cash flow to 6 Turns out it was January was 1.1. That's 7 zero is a problem. Subsequently caused our cash flow 7 okay. Usually they're not spot on. So we valued it 8 8 problems with our banks. based on 1.1 million in EBITDA, and that's correct. 9 But if you speak about January in 9 Q. Okay. And you had -- and in doing so, you had 10 particular, let's dial down on that. In January we only 10 factored in the January of 2017 figures, right? 11 lost \$82,000 in that month as compared to the prior 11 A. Yes. I believe that's what -- yeah. 12 January where we lost \$94,000. So was it better than the 12 Q. And so now the company is doing better than it 13 year prior? Yes, but we still lost \$82,000. 13 did the prior January, right? 14 Q. Okay. Why is that? 14 A. What do you mean by "now"? 15 A. The performance of the company. 15 Q. Well, January 2018. You're telling me it 16 Q. Did revenues go down? 16 actually did better. 17 A. It's -- the EBITDA went down. So the cash that 17 A. It lost -- (laughing.) It lost \$82,000. 18 was available -- for example, if the revenue doubles or 18 That's not -- that's not good by any means. 19 triples, if it doesn't result in cash flow on the bottom 19 Q. Right. But compared to, you know, five months 2.0 to pay your note with, you don't have any cash to buy 20 before, when you had valued the company at about 21 product or pay your notes with. 21 4 million bucks, you were looking at January data that 22 So if you get the best product ever in and 22 was worse, right? 23 people want to buy it but you get it at no margin or 23 A. A. I want to answer your question. So I didn't intend to laugh at you. It's the world that I live in. When you lose 100,000 or \$84,000 in a month after you'd already lost money in all the months prior -- so when your EBITDA -- let's just say your cash flow goes from a million to zero -- I'm not even taking January.

At December, we were already at a hundred thousand in EBITDA, rounding now. So that was gone to the point where the banks come in and start threatening us, and we have to put more money in. And then to have January be a loser, too.

It is so far beyond the subtle difference of -- well, it's a little bit better, a little bit worse. It's dire at this point. There's a -- the EBITDA's gone. You don't have the cash flow to buy products by December, even.

Q. Okay. Now, you guys are good at your job, right?

A. I don't know how to answer that. I feel I do as good as I can every day.

Q. I assume you're pretty good. You appear to have created a successful -- successful company.

23 Y'all factored in -- I mean, y'all 2.4 evaluated this and factored in the note payments, and you 25 modeled the expected cash flow, right?

Page 252

delegation of David, from whatever that point was through to -- through to the end, was under David.

And I guess ultimately, at the end, when I signed the bankruptcy, I became president at that point. But that was -- I'm just saying it was under the direction -- delegation of David prior to that point.

Q. Okay.

A. And also a board member. So, you know, David was the president; but also, David and I are both the board members. And what he and I decide -- the board members elect the operating partner.

Q. Okay. What about with respect to ACET Holdco -- Baymark ACET Holdco LLC?

A. All right. You got me. Erase what I just said, and now apply it to ACET Holdco. Because I think at ACET Opco down below, all decisions are pushed up to the Holdco level. So that's what I meant to say, the Holdco level. I apologize.

Q. Got it.

A. You got me.

Q. What about Baymark ACET Direct Invest LLC?

A. ACET Direct Invest is a entity where we collect our limited partners and investors. It's typical in all our deals and private equity deals to make sure they maintain their limited role. And so it's really where

Page 251

A. We did.

Q. And y'all did that at acquisition?

A. That is true. We did.

Q. And there were substantial note payments that you were anticipating paying to Super G?

A. Correct.

Q. So this wasn't, you know, this new encumbrance or, you know, debt servicing payments. These weren't unanticipated.

A. The fact that the payments were gonna exist were not unanticipated, correct.

Q. And -- okay. Let me ask you: ACET Global, what was your role at ACET Global from 2017 to 2019?

A. All right. So that's a span. So at first when the deal was done, David and Matt were working on the deal.

As it started to get into distress -- or the EBITDA was dropping quick and the cash flow problem right out of the gate, he turned it over to me -- or he didn't think that it was a livable or a survivable deal. It was going to have trouble, so he gave it to Matt and I to manage -- or he delegated it to Matt and I.

I have a bit more operational background and expertise, and Matt's very -- knew the business as well. And so my role, under the guise -- or the

Page 253

the money comes in and then invests in one unit. So if 2 we had two investors or 50 investors, consolidate them 3

all into an investment vehicle, and that's what invests in.

Q. Okay. And what about Baymark Partners?

6 A. Baymark Partners in this deal, the only 7 connection it had was it had a management agreement to manage -- or have oversight -- again, back up at ACET

8 9 Holdco, that's where the management came in as the board

10 of -- the directors. Manage it at that level. Receive a 11

fee for that through the agreement --

Q. Okay.

13 A. -- that we accrued.

Q. And what about Baymark Partners Management LLC?

15 A. Baymark Partners Management I don't think is 16 connected to ACET Global at all. I think where that

17 comes in is it's the entity that's associated with the

18 Windspeed -- Bill Szeto -- Trading.

19 Q. Okay. And Windspeed Trading, any role with 20

21 A. Own the 40 percent equity. It hasn't changed 22 from what you showed me. And then also, there was a

board seat

24 Q. Okay. Who had that board seat? 25

A. I believe that was me.
